Growth business outshines and changing the company's DNA

1QFY27: In-line with consensus; volumes/sales grew 13%/12% y-y; OPM at 13.5% drive OP growth to 19.3%; FY27 guidance of double-digit sales growth and OPM to expand 50-75bp maintained

Rating Remains	**Buy**
Target price Increased from INR 1,450	**INR 1,475**
Closing price 24 July 2026	**INR 1,088**
Implied upside	**+35.6%**
Market Cap (USD mn)	11,153.0
ADT (USD mn)	26.5

Core (Tea & Salt) hold-up despite headwinds; guidance of 5-7% volume + 2-4% price growth

Consolidated sales grew 12% y-y, in-line with the Bloomberg consensus estimate of 13%, with India volume growth of 13% y-y. **Tea** volumes grew 2% y-y (vs flat expectation) despite the heat-wave and lower consumption due to gas shortage. However, Tea sales declined 4% as the company passed on the benefits of earlier lower tea prices. **Salt** volumes and sales grew 7% y-y in-line with the company's long-tern guidance. TATACONS initiated calibrated price hikes in both tea (+1-2%) and salt (+6%) in June which should support sales growth and margins. Tea inflation currently is c.7-10% while it is still early days for procuring new crops. Management has highlighted it will hike prices (likely in end-2Q) to protect its margins. We expect early double-digit sales growth to sustain in FY27F.

Growth business (36% of India) grew 47% y-y; guidance of 30%+ growth maintained

Ready-to-drink (RTD/water) sales/volumes grew 41%/35% y-y. **Sampann sales** grew 58% y-y, with 30%+ growth in core products (Pulses, Spices, Poha and Vermicelli), strong performance in dry fruits, cold pressed oils and additional growth from new innovations / launches. **Capital Foods (CF)** witnessed strong sales growth of 40% y-y supported by innovation, A&P, execution, restructuring in the go-to-market strategy and a favourable base. **Organic India (OI)** sales grew 27% y-y. Management expects **Growth business to sustain 30%+ growth despite a high base supported by a material step-up in new launches and category expansion** (*Fig. 18 Fig. 19*). It also expects**Starbucks** to achieve close to high single-digit sales growth, on mid-single-digit same-store sales growth and new store openings.

GPM improves q-q but OPM contracts q-q as expected; FY27 OPM to be +50-75bp y-y

GPM rose 255bp y-y (+140bp q-q) to 42.7%, while OPM expanded 85bp y-y (-105bp q-q) to 13.5%, in-line with the consensus forecasts of 13.7%, leading to 19.3% y-y EBITDA growth. Growth business continued to see improvement in margins. Management expects overall margin expansion from the full effect of recent pricing actions, potential further price hikes, improvement in US coffee margins, ongoing cost-saving initiatives, and increased mix from the Growth business. Medium-term OPM guidance of 17-20%.

Maintain Buy and top-pick status; TP of INR1,475; stock trades at 46x FY28F EPS

We marginally tweak our FY27F-29F EPS to factor in lower growth from Tea due price cuts and forecast a 16.5% EPS CAGR over FY26-29F. We value TATACONS based on DCF, assuming a risk-free rate of 6.75%, risk premium of 5%, beta of 0.7, WACC 10.3% and terminal growth rate of 6% (all unchanged) roll forward to Jun-28F (Mar-28F previously) and arrive at a TP of INR1,475 (INR1,450 previously), implying a target P/E multiple of 60x. Key risks: low growth of its growth business and weak margins.

  - The pulses market is large at INR220bn with just 6% branded penetration, indicating significant growth runway for the company which is at 6-7bn.
  - TATACONS entered cold-pressed edible oils to build on the consumer trust deficit in that segment, where the Tata brand could effectively differentiate and drive growth with margins, which is not likely to be the case for base oils.
  - Cost inflation was observed in growth segments like spices, dry fruits (due to the Iran crisis), and cold-pressed edible oil, which management intends to pass on to maintain margins.
  - Sampann largely relies on outsourcing, but the company evaluates bringing manufacturing in-house for categories with sufficient scale and financial viability, noting that capex for most of these categories is not very heavy.

    - In Canada, revenue was flat y-y [CC] but value share improved across regular and specialty tea categories.

- Specialty and fruit/herbal brands (Tea Pigs and Good Earth) continued to gain share.

- **Non-branded business**
  - The Solubles business reported revenue decline of 12% [CC] due to correction in coffee prices which was partially offset by hedging.
  - Plantations reported revenue decline of 8% y-y.
  - Margins dilution was due to coffee price corrections and some forex-related losses, however, management expects recovery in subsequent quarters.
- **Tata Starbucks (JV)**
  - Revenue grew 11% y-y with a mid-single-digit same store sales growth.
  - The company closed 4 stores (net) taking the total store count to 498.

  - The company launched 14 products in 1QFY26.
- **Others:**
  - Despite coffee price deflation being detrimental to the unbranded business, it is a net positive for the consolidated business as it's a pass-through in unbranded and beneficial for branded.
  - Manufacturing for Organic India and Capital Foods is primarily in-house, with some third-party production, while RTD utilizes dedicated co-packers.

Valuation and risks

Valuation

Maintain Buy and top-pick status; TP of INR1,475; stock trades at 46x FY28F EPS

We marginally tweak our FY27F-29F EPS to factor in lower growth from Tea due price cuts and forecast a 16.5% EPS CAGR over FY26-29F. We value TATACONS based on DCF, assuming a risk-free rate of 6.75%, risk premium of 5%, beta of 0.7, WACC 10.3% and terminal growth rate of 6% (all unchanged) roll forward to Jun-28F (Mar-28F previously) and arrive at a TP of INR1,475 (INR 1,450 previously), implying a target P/E multiple of 60x. Key risks: low growth of its growth business and weak margins.

Investment thesis:

- **Deepening its core and gaining market share:** TATACONS is deepening its core in mature but fragmented categories (tea, salt) by increasing its distribution reach. This is enabling it to grow ahead of the overall category and is driving market share gains.
- **30% of its India portfolio to grow at 25-30%:** It is investing in its 'Growth business' which is high-growth and high-margin thus improving its overall growth and margin profile. Brands/Categories include Sampann spices & pulses, NourishCo packaged water, Soulfull cereals & healthy snacks, Yumside RTE & RTC, Capital Foods and Organic India.
- **Widening its total addressable market (TAM):** TATACONS has forayed into new categories like cold-pressed edible oils, saffron, dry fruits, plant based meat, plant protein, honey & preserves, fruit drink, instant coffee. It is aptly leveraging its strong brand equity of a TATA Group company and distribution reach and widening its TAM and growth.
- **Increasing sales contribution from higher margin businesses:** It is improving its margin profile and return ratios by premiumizing its core and ramping up contribution from new categories that have healthy margins.
- **M&A an active strategy:** It endeavours to grow both organically and inorganically and has clear guidelines for M&A of being a strategic fit and ability to create value.

Risks

- Lower-than-expected volume growth in the ‘Growth businesses’.
- Significant increase in competitive intensity.
- Higher-than-expected pressure on margins due to sharp inflation in input costs.
