

Taiwan ODM/Brands: 3-month preview: June revenue flat MoM on avg but YoY remains strong; AI servers/smartphone new models key drivers

We preview 3-month revenues for the seven companies under our coverage in the AI server/PC supply chain and update our estimates for Quanta. Across the supply chain, we are positive on: (1) Apple's supply chain on the back of a ramp-up of new models with form factor changes (i.e., foldable phones in 2026, and the iPhone 20 in 2027) to support end demand; (2) AI server components riding on specification upgrades; and (3) ASIC AI servers' rising penetration rate.

Buy: Hon Hai, Wiyynn, AVC; **Neutral:** Quanta, Inventec, Compal, ASUS

On a MoM basis, we expect the average revenue growth of the seven companies to come in at +6%/-5%/+0% in Jun/Jul/Aug 2026 (Exhibit 1). We expect flat MoM growth in coming months, reflecting AI server ODMs undergoing model transition and PC consumption pull-in in 1H26 under high memory costs, which would weigh on PC supply chain shipment growth.

On a YoY basis, we expect the average revenue growth of the seven companies to come in at +39%/+37%/+29% in Jun/Jul/Aug 2026 (Exhibit 2), driven by the continuous ramp-up of AI servers, along with a PC product mix upgrade, new smartphone models, and high memory costs driving up the selling price.

Hon Hai (2317.TW, Buy, on APAC CL): AI servers remain key growth driver

Hon Hai's May revenue was +40% YoY/+3% MoM to NT\$859bn, or 5% higher than our previous estimates. We expect 2Q26E revenue to be +31% YoY/+11% QoQ to NT\$2.4 trillion. May continued MoM growth (+3%) off Apr's high base, reflecting solid demand for AI server racks despite the typically slow seasonality of traditional electronics products in 2Q. We expect **Jun revenue** to grow 22% YoY (or -23% MoM) considering the high base, which is in line with historical seasonality. We expect continued shipment growth of AI server racks to support 2Q/3Q26E growth ahead.

Exhibit 5: We model Hon Hai's Jun 2026 revenue at +22% YoY or -23% MoM

Price Target Risks and Methodology – Hon Hai

Valuation methodology: We are Buy-rated on Hon Hai. Our 12-month target price of **NT\$400** is based on a **21.0x 2026E P/E** multiple, which is set in line with peers' PEG&M ratio (i.e., P/E vs. forward-year earnings growth and OPM).

Key downside risks: (1) slower-than-expected ramp-up of the AI server business; (2) weaker-than-expected EV total solution performance across EV assembly, design, software, and semis; (3) slower-than-expected ramp-up of capacity globally; and (4) fiercer-than-expected competition in the consumer electronics EMS business.

Quanta (2382.TW, Neutral): AI server ramp-up while model transition and PC pull-in may weigh on 3Q26

Quanta's May revenue was down 8% MoM, or 11% below our estimate, reflecting the impact of the AI servers model transition and PC consumption pull-in under rising memory costs. The company's PC shipments in May declined 8% YoY, or were flat MoM. We expect 21% MoM revenue growth for Jun, considering the low base in May and improved PC consumption by the quarter-end. However, we expect the growth momentum to slow in Jul-Aug, given the AI server rack model transition in 3Q26E and a slowdown of PC shipments as consumption was pulled in in 1H26.

Exhibit 7: We model Quanta's Jun 2026E revenue at +98% YoY, or +21% MoM

Price Target Risks and Methodology - Quanta

We are Neutral-rated on Quanta. Our 12-month target price of **NT\$299** is based on an **11.4x 2027E P/E**, which references PC/server peers' EPS growth vs. P/E multiple correlation. We see EPS growth as a major factor for the stock's performance.

Key upside/downside risks include: 1) stronger-/weaker-than-expected PC market recovery; 2) faster-/slower-than-expected AI server ramp-up; and 3) stronger-/weaker-than-expected demand for general servers.

AVC (3017.TW, Buy): GPU and ASIC AI servers driving liquid cooling penetration rate

AVC's May revenue was flat MoM, or in line with our estimate. We expect the growth momentum to recover in Jun, considering the lower base in May, followed by sequential revenue growth in Jun-Sep, driven by (1) the ramp-up of liquid cooling components for new AI server racks, (2) a growing liquid cooling penetration rate in ASIC AI servers, and (3) the ramp-up of AVC's liquid cooling components for new ASIC AI servers.

Price Target Risks and Methodology - AVC

We are Buy-rated on AVC. Our 12-month target price for AVC is based on a near-term P/E, consistent with our Taiwan Technology coverage. We base our target price of **NT\$3,536** on a target P/E multiple of **26.7x** on our forward-year EPS (2027E). Our target P/E is derived from the correlation between P/E and EPS growth of its peers in technology hardware.

Key downside risks: (1) slower-than-expected adoption of liquid cooling; (2) lower-than-expected demand for AI servers; (3) fiercer-than-expected competition; and (4) slower-than-expected recovery of general servers.

Wiwynn (6669.TW, Buy): ASIC AI servers support growth ahead

Wiwynn's May revenue was flat MoM, or 12% below our estimate, due to the switch to a consignment business model for some server projects starting from Apr ([read more](#)). Despite the business model transition being set to result in lower revenues, GM is expected to improve, which would also ease the working capital burden in the long term. For the coming June revenue, we expect a sequential increase on strong general server demand from leading US CSPs, followed by 23% QoQ growth in 3Q26 driven by an ASIC AI server ramp-up. We are positive on Wiwynn's leading market position in ASIC AI servers, diversifying into GPU AI server racks and riding on leading US CSPs' strong demand across general servers and AI servers.

Exhibit 11: We expect Wiwynn's Jun revenue growth to be +6% YoY/ +8% MoM

Price Target Risks and Methodology - Wiwynn

We are Buy-rated on Wiwynn with a 12-month TP of **NT\$7,147**. Our target price is based on **15.8x 2027E P/E**, which is derived from PC/server peers' EPS growth vs. P/E multiple correlation. We see EPS growth as a major factor for the stock's performance.

Key downside risks: 1) weaker-than-expected AI server demand growth; 2) slower-than-expected recovery in general server demand; and 3) more severe competition in the server ODM market.

ASUS (2357.TW, Neutral): PC product mix upgrade and rack-level AI servers supporting 2H26 growth

ASUS's May revenue was down 16% MoM, or 13% below our estimate, which we attribute to the high base in Mar-Apr (monthly revenue +58% / -5% MoM). We expect Jun revenue to grow at +23% YoY, considering customer pull-in at quarter-end. Despite ongoing memory cost pressures, we expect the mix upgrade towards AI PCs and a rack-level AI server ramp-up to support 2Q/3Q26E growth at 26%/12% YoY. We model Jul/ Aug revenues to grow 32%/4% YoY to NT\$72bn/ NT\$65bn, with a MoM decline on the high base.

Exhibit 13: We expect ASUS Jun revenue to grow +24% YoY/+23% MoM to NT\$85bn

Price Target Risks and Methodology - Asus

We are Neutral-rated on ASUS with a 12-month target price of **NT\$1,082**. Our target price is based on **15.8x 2027E P/E**, which is derived from brand makers' average ratio of 2027E P/E to 2028E NI YoY and OPM. We see EPS growth and OPM as major factors for the stock's share performance.

Key upside/downside risks include: 1) stronger / weaker-than-expected PC market growth; 2) faster / slower-than-expected AI and gaming PC growth; and 3) faster / slower-than-expected AI server ramp-up.

Compal (2324.TW, Neutral): Global capacity ramping up to support AI servers

Compal's May revenue was flat MoM, or 9% higher than our estimate. Compal's PC shipments in May increased 11% MoM to 2mn units, and management expects QoQ growth in 2Q-3Q26. We expect MoM revenue growth in Jun, driven by customers' pull-in by quarter-end, followed by slight MoM declines in Jul-Aug, considering the high base in Jun. Overall, we expect 2Q / 3Q26E revenues to grow at 20%/32% YoY, supported by Compal's ongoing revenue mix diversification, and its new US plant, expected to start production by the end of 2Q26 ([link](#)).

Price Target Risks and Methodology - Compal

We are Neutral-rated on Compal with a 12-month target price of **NT\$39.5**. Our target price is based on **13.6x 2027E P/E**, which is derived from PC/server peers' EPS growth vs. P/E multiple correlation. We see EPS growth and market re-rating for ODM companies as major factors for the stock's performance.

Key upside/downside risks: 1) stronger-/weaker-than-expected PC market recovery; 2) faster-/slower-than-expected AI server ramp-up; and 3) stronger-/weaker-than-expected demand for tablets.

Inventec (2356.TW, Neutral): Server business in expansion

Inventec's May revenue was up 35% YoY, or 30% above our estimate, which management attributes to the strong end demand for both AI and general servers on the global AI trend. We model sequential revenue declines for Jun-Aug, considering the PC consumption pull-in in 1H26 and rack-level AI servers entering model transition. Nevertheless, our estimate still show YoY growth for Inventec's Jun-Aug revenues, supported by its AI server capacity ramp up in the US (e.g., L10 / L11 assembly). Overall, we expect 2Q/3Q26E revenues to grow at 31%/10% YoY.

Price Target Risks and Methodology - Inventec

We are Neutral-rated on Inventec with a 12-month target price of **NT\$56.0**. Our target price is based on **13.6x 2027E P/E**, which is derived from PC/server peers' EPS growth vs. P/E multiple correlation. We see EPS growth as a major factor for the stock's performance.

Key upside/downside risks: 1) stronger-/weaker-than-expected PC market recovery; 2) faster-/slower-than-expected AI server ramp-up; and 3) stronger-/weaker-than-expected demand for general servers.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Regulatory disclosures**Disclosures required by United States laws and regulations**

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a

principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or

other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global

Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
