Takeaways from webinar with Colliers' Head of Research; ASEAN Data Centers - SG optimizes efficiency; Malaysia adds MWs

Singapore Property & REITs - Takeaways from webinar with Colliers' Head of Research. We recently hosted Ms Catherine He, Colliers' Head of Research, on the Singapore property outlook. Colliers' view is that Singapore property markets remain fundamentally healthy, though growth is increasingly selective and bifurcated across sectors. The strongest themes are flight-to-quality in offices, resilience in suburban retail, selective opportunities in industrial assets, and moderation in residential demand. Across all sectors, supply remains constrained in the highest-quality segments, with prime CBD offices, premium suburban malls, modern logistics assets, and differentiated residential projects continuing to attract demand despite macro uncertainty. AI has emerged as an increasingly important demand driver, particularly for offices, business parks, and data centres. With the overall positive outlook for Singapore's commercial market, we reiterate our preference for Singapore-focused REITs with our top pick being CICT. Furthermore, we see value in "fallen angel" MPACT, powered by VivoCity and savings from lower SGD cost of debt. We also like CIT and UOL given their exposure to the resilient Singapore residential market and potential value unlock. We also believe the risk reward being attractive on the expected recovery in FLT and MLT. [Link](#) (Source: J.P. Morgan)

ASEAN Data Centers - SG optimizes efficiency; Malaysia adds MWs Singapore's tightening of efficiency standards reinforces our positive view on Malaysia's data center (DC) sector. We see Singapore's proposed power usage effectiveness (PUE) requirements of ~1.25-1.3 (vs Malaysia's 1.4 threshold for hyperscalers) as a structural catalyst that sharpens the roles of both markets. Singapore remains the region's premium DC hub, optimizing scarce land and power resources, while Malaysia is emerging as the preferred destination for incremental hyperscale and AI capacity, supported by lower development costs (US\$7m/MW vs Singapore's US\$12m/MW, per Cushman & Wakefield estimates), faster execution and improving renewable energy access. In short, Singapore optimizes every MW; Malaysia captures the next MW. We remain constructive on both markets, with SCGB (OW) as our preferred Malaysia DC pure-play and KDCREIT (OW) as our preferred Singapore DC exposure. [Link](#) (Source: J.P. Morgan)

Companies

ESR-REIT is acquiring 5 freehold logistics assets in Melbourne for net A\$276.8m (c.S\$247.9m) at 5.5% initial NPI yield with total acquisition outlay of A\$303.0m (c.S\$271.3m), and completion targeted in 3Q 2026. On a FY2025 pro forma basis, the deal is guided to be +4.3% DPU accretive, while DPU accretion moderates to +1.3% assuming a Perpetual Securities Issuance of up to S\$175.0m. Pro forma aggregate leverage is expected at 41.9% post-acquisition, improving to 38.5% with the assumed S\$175.0m perpetuums. Funding is intended via divestment proceeds and debt financing with no new unit issuance, and the pro forma assumes new debt facilities of S\$271.3m at a 2.49% weighted-average all-in finance cost.

Frasers Property Limited will divest five freehold logistics assets in Australia to ESR-REIT for A\$288.6m (c.S\$258.4m) cash consideration. The consideration is subject to an estimated A\$11.8m (c.S\$10.5m) completion adjustment in favour of the purchasers for unutilised rent incentives and a rental guarantee, implying net A\$276.8m (c.S\$247.9m). Separately, FPL is also selling a Sydney mall, Ed.Square Town Centre for A\$248m to PGIM's Real Estate Investment Group and Assembly Funds Management (AFM). *(Source: Frasers Property Limited, The Business Times)*

URA's Controller of Housing issued updated guidance urging developers to **apply anti-money laundering checks in a risk-proportionate way**, clarifying that source-of-wealth and source-of-funds verification is not required for the vast majority of homebuyers. Developers can proceed once standard customer due diligence is done and there are no sanctions hits or adverse news, but must conduct enhanced due diligence, including source checks, for higher-risk profiles such as foreign politically exposed persons or links to higher-risk jurisdictions. *(Source: The Business Times)*

Important Disclosures

Company-Specific Disclosures: J.P. Morgan does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. Important disclosures, including price charts and credit opinion history tables (if applicable), are available for compendium reports and all J.P. Morgan–covered companies, and certain non-covered companies, by visiting <https://www.jpmm.com/research/disclosures>, calling 1-800-477-0406, or e-mailing research.disclosure.inquiries@jpmorgan.com with your request.

Explanation of Equity Research Ratings, Designations and Analyst(s) Coverage Universe:

J.P. Morgan uses the following rating system: Overweight (over the duration of the price target indicated in this report, we expect this stock will outperform the average total return of the stocks in the Research Analyst’s, or the Research Analyst’s team’s, coverage universe); Neutral (over the duration of the price target indicated in this report, we expect this stock will perform in line with the average total return of the stocks in the Research Analyst’s, or the Research Analyst’s team’s, coverage universe); and Underweight (over the duration of the price target indicated in this report, we expect this stock will underperform the average total return of the stocks in the Research Analyst’s, or the Research Analyst’s team’s, coverage universe. NR is Not Rated. In this case, J.P. Morgan has removed the rating and, if applicable, the price target, for this stock because of either a lack of a sufficient fundamental basis or for legal, regulatory or policy reasons. The previous rating and, if applicable, the price target, no longer should be relied upon. An NR designation is not a recommendation or a rating. Some stocks under coverage have a rating but no price target; in these cases, we expect the stock will outperform/perform in line/underperform the average total return of the stocks in the Research Analyst’s, or the Research Analyst’s team’s, coverage universe of the relevant duration of the region. In our Asia (ex-Australia and ex-India) and U.K. small- and mid-cap Equity Research, each stock’s expected total return is compared to the expected total return of a benchmark country market index, not to those Research Analysts’ coverage universe. If it does not appear in the Important Disclosures section of this report, the certifying Research Analyst’s coverage universe can be found on J.P. Morgan’s Research website, <https://www.jpmorganmarkets.com>.
