

CHINA HEALTHCARE: MEDICAL DEVICE & SERVICES

2Q/1H26 Preview: Recovery Visibility Remains Uneven; Prefer Names with Globalization Optionality

We remain broadly neutral on China Medical Device & Healthcare Services into 2Q/1H 26 results, as visibility on domestic demand recovery continues to be uneven, while **maintaining a more constructive view on companies with visible globalization potential**. Domestic fundamentals remain constrained by policy-related headwinds, including the normalization of consumables VBP, ongoing reimbursement and cost-control measures under DRG/DIP, and the upcoming rollout of equipment VBP in 2H26 (see our [previous note](#)). While pricing pressure is gradually stabilizing on an easy base, we continue to monitor the impact of the latest anti-corruption measures introduced since May, which could weigh on hospital procurement activity and clinical volumes in the near term.

China MedTech & Services has **remained one of the weaker segments within healthcare, with stock prices declining 21% on avg. over the past six months**. Although the sub-sector rebounded 4.5% over the past month, it **continues to lag the broader healthcare coverage universe (+8.9%)**. Investor interest remains highly selective, largely focused on companies demonstrating either clear operating recovery or with a proven track record of overseas expansion. Notably, **Angelalign** (+16.8% in 1M) has outperformed likely driven by improving confidence in its international growth trajectory. **Surgical robotics** companies continue to attract significant investor attention given their long-term globalization potential; however, share price performance has yet to fully reflect recent overseas commercialization progress, as investors remain focused on order verification, sustainability of overseas demand, and the broader sentiment impact from Intuitive Surgical's recent share price weakness (-30% in 3M).

Investor engagement with healthcare service names remains relatively limited amid a still-soft consumption backdrop. That said, the market has become increasingly focused on signs of operational stabilization, margin resilience, and shareholder return initiatives, while Hygeia (+12.4% in 1M), Gushengtang (+7.2% in 1M) have seen some share price recovery following easing concerns over potential exclusion from the Hong Kong Stock Connect program. Looking ahead, **the pace of demand recovery during summer, particularly for discretionary and consumer-exposed healthcare services**, will be a key area of focus for investors assessing the sustainability of earnings recovery into 2H26.

Goldman Sachs does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. For Reg AC certification and other important disclosures, see the Disclosure Appendix, or go to www.gs.com/research/hedge.html. Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

Medtech: Overseas Execution Continues to Differentiate; Profitability and Margin Inflection Emerging

- **Overseas execution remains the key differentiator across MedTech**, particularly in surgical robotics and clear aligners. **Edge Medical** continues to scale internationally, with c.100 cumulative overseas systems installed/shipped by 1H26 and utilization ramping (>20k cumulative procedures), supporting operating leverage and potential upside to guidance. **MicroPort MedBot** reported c.300 cumulative global orders (240+ overseas) and 80+ installations YTD, while maintaining its FY26 target of c.200 installations, implying continued commercialization momentum. **Angelalign**: Domestic and overseas growth remain on track, with limited VBP exposure given only c.5–7% of revenue comes from public hospitals. The VBP rollout appears modestly delayed, while recent legal wins in China and Germany help reduce litigation-related overhangs and improve execution visibility (see the [news release here](#) and our [previous note](#)).
- **Preliminary results: 1) MicroPort MedBot's** July 22 [profit alert](#) marked a key inflection point, with 1H26 profitability achieved alongside c.200–230% yoy revenue growth, driven by strong Toumai adoption and >450% yoy overseas revenue growth. Gross margin expanded by more than 15ppt, supported by scale benefits and product mix improvement. Investor focus is likely to remain on revenue sustainability and accounts receivable collection. **2) AK Medical** also delivered a positive [profit alert](#), guiding for c.10% revenue growth and >20% net profit growth in 1H26. Overseas revenue increased c.40% yoy, ahead of expectations, supporting margin expansion. Robot commercialization continues to gain traction, with 11 tenders secured as of June (including five overseas), reinforcing the overseas growth narrative.

Services seeing gradual operational recovery, while visibility remain uneven

- Healthcare service providers are seeing **gradual operational recovery**, alongside a stronger emphasis on **capital discipline, shareholder returns, and overseas expansion**. **Hygeia** reported improving trends in the five months ended May 2026, with both outpatient visits (+4% yoy) and surgical volumes (+7.6% yoy) increasing, supported by stabilized pricing and higher-complexity case mix. Non-medical insurance contribution increased modestly (+1–2% yoy), while management indicated a more cautious expansion strategy, slowing heavy-asset capex and focusing on buybacks/dividends, with c.Rmb500mn annually earmarked for shareholder returns (2026–28). **Gushengtang** maintained solid volume growth (+15% yoy in 1Q; +15–20% in Apr–May), in line with FY26 growth guidance. The company is also enhancing shareholder returns, guiding ≥HK\$450mn annual dividends (c.≥60% payout) and announcing an additional HK\$300mn buyback program; On overseas expansion, Gushengtang is scaling its Singapore operations (targeting c.50 stores by YE26, c.Rmb300mn revenue).
- **Preliminary results: Jinxin** [pre-announced](#) 1H26 net profit of at least Rmb90mn (vs. a net loss of Rmb1,044mn in 1H25) and EBITDA of at least Rmb290mn (vs. negative Rmb938mn in 1H25). Operationally, new patient visits increased 9% yoy to 24,169 and OPU cycles rose 6% yoy to 14,653, led by 42% growth overseas and 15%

growth in Kunming/Wuhan, partly offset by a 5% decline in Chengdu, while Greater Bay Area cycles remained broadly stable at +1% (see the [operating data announcement](#)).

What the companies guided

Guidance for FY26 and beyond	
AngelAlign	Total case volume growth of c.25% y/y in 2026, with overseas cases reaching c.340k (+33% y/y). China case volumes are guided to c.325k (+18% y/y). Overseas monthly breakeven by late 2026 (ex. potential legal fees)
MicroPort MedBot	Operationally, mgmt targets 200+ new installations in FY26, with revenue scale of over Rmb1,100mn, +100% growth, among which 80% will come from overseas sales. On this basis, mgmt guided the business to turn profitable at the full-year level, with gross margin continuing to improve to 55% as sales scale up
Edge Medical	Operationally, mgmt targets approximately 120 new installations in FY26, with revenue scale of over Rmb850mn, +85% growth. On this basis, mgmt guided the business to turn profitable at the full-year level, with gross margin sustained above 60%
AK Medical	For FY26, mgmt did not provide explicit revenue guidance, but indicated that they expect both revenue and earnings to maintain similar momentum as FY25
MicroTech	≥35% revenue growth, with CGM expected to outgrow the group (y/y >50%). Gross margin to continue improving in FY26. Net margin to expand further in FY26, with medium-term margin potential guided at c.15–20%
Weigao	Cautiously optimistic on 2026, guiding 5–8% revenue growth, with 1Q tracking in line
Tinavi Medical	Company guided EBITDA and NP breakeven in 2026E/27E
Gushengtang	c.15% y/y revenue growth
Jinxin Fertility	EBITDA to reach Rmb600-700mn while not providing specific sales guidance similar to last year
Topchoice	Mgmt guided 30% y/y revenue growth. Implant dentistry volume at 200k, orthodontics volume at 50k cases, and "Dandelion Program" hospitals revenue growth at 48% y/y

Valuation and risks

Exhibit 4: Valuation and risks

Ticker	Company name	Valuation and risks
Healthcare service & medical device		
2235.HK	Microtech	Our risk-adjusted DCF based 12m TP is HK\$8.7 (from HK\$8.9) with a discount rate of 14.5% and terminal growth rate of 2%. We are Neutral rated. Key upside risks: 1) stronger-than-expected overseas commercialization; 2) improved cost efficiency and margin resilience; 3) successful launch of new products. Key downside risks: 1) intensifying competition in CGMS and insulin pumps; 2) execution risk in overseas markets; 3) manufacturing scale-up challenges; 4) product development and regulatory risks.
6699.HK	Angelalign Technology	Our revised 12m TP of HK\$112.0 (from HK\$104.0) is based on a SOTP valuation - 12m fwd P/E of 20x for the domestic business, and DCF to 2033E for the overseas business discounted back to 2027E at a rate of 9.0%. Downside risks: 1) Geopolitical tensions, e.g., potential tariff and data privacy concerns; 2) slower recovery for domestic market; 3) more intense competition in domestic market; and 4) slower-than-expected margin pickup due to continued investment in overseas business.
2252.HK	MicroPort MedBot	Our 12-m TP of HK\$40.0 (from HK\$45.0) is based on DCF valuation, with 9% WACC and 3% terminal growth (consistent with our medtech & service coverage). Key downside risks: 1) slower-than-expected commercialization and growth in China; 2) potential patent litigation overseas; 3) potential margin pressure from profit-sharing with the MicroPort group and multi-business expansion.
2675.HK	Edge Medical	Our 12-m TP of HK\$74.0 (from HK\$81.0) is based on DCF valuation, with 9% WACC and 3% terminal growth (consistent with our medtech & service coverage). Key downside risks: 1) Slower-than-expected commercialization in China, and potential patent litigation overseas; 2) weaker-than-expected capabilities of overseas collaborated distributors; 3) capacity constraints.
688277.SS	TINAVI	Our 12-m TP of Rmb20.3 (from Rmb21.8) is based on a 10-year DCF model, in line with our covered early revenue medtech company. We assign a discount rate of 9% and terminal growth rate of 3% in line with our assumptions for A-share medtech & service companies. Key risks: Slower- or faster-than-expected R&D and commercialization in domestic and overseas markets; changes in the competitive environment; weaker- or stronger-than-expected surgical/service fee collections.
6078.HK	Hygeia	Our 12-month target price of HK\$11.8 (from HK\$12.5) is based on a 12m fwd P/E of 15x. We are Neutral-rated. Key upside risks: 1) earlier-than-expected operating recovery; 2) M&A re-acceleration at attractive valuations; 3) successful ramp-up of new hospitals; 4) overseas expansion exceeding our expectations. Key downside risks: 1) worse-than-expected outcomes from M&A; 2) worse-than-expected impact from DRG/DIP implementation; 3) delays/slower-than-expected ramp-ups in new project launches; and 4) weaker-than-expected macro as negative to out-of-pocket portfolio of healthcare spending.
1789.HK	AK Medical	Our 12m TP of HK\$8.0 (from HK\$8.4) is based on a discounted 2028E exit P/E multiple of 17x (from 18x, mark-to-market), and a discount rate of 9%. We are Buy rated. Key downside risks: 1) slower-than-expected recovery in non-VBP volumes; 2) margin pressure from cost inflation or mix shift; 3) delayed monetization of surgical robotics; 4) execution risk in scaling the robotics ecosystem; 5) policy and regulatory uncertainty; 6) higher-than-expected competitive intensity
1066.HK	Shandong Weigao	Our 12-m TP of HK\$3.91 (from HK\$4.00) is based on a 12m fwd PE at 10x. We are Neutral rated. Key upside risks: 1) a faster-than-expected fade-out of residual VBP impact; 2) stronger execution in peri-operative equipment and overseas expansion. Key downside risks: 1) more persistent VBP-related pricing pressure; 2) potentially longer-than-expected for new growth drivers to ramp-up
1951.HK	Jinxin Fertility	Our 12m TP of HK\$2.4 is based on P/E, in line with our methodology for other healthcare services names under coverage. We use a target P/E multiple of 26x 2027E earnings. Our target multiple references its past 1-yr avg. forward P/E. We are Sell-rated. Upside risks: 1) Faster ramp-up in new capacity; 2) More policies related to fertility support; and 3) Better-than-expected ramp-up in US operation
2273.HK	Gushengtang	Our 12m TP of HK\$36.5 (from HK\$35.2) is set at a 12m fwd 18x PER, referencing PEG of peer groups (TCM manufacturers/healthcare service providers blended). Key downside risks: 1) Worse-than-expected competition in the private/public providers; 2) worse-than-expected pace and results of geographical expansion in new provinces/cities; 3) weaker-than-expected ability to secure accretive M&A; 4) unexpected margin impact from government policies; 5) challenges in its ability to recruit and retain talents; and 6) uncertainties over impact from anti-corruption activities.
600763.SS	Topchoice	Our 12m TP of Rmb38.1 is based on 2035E DCF (discounted back to 2027E), with a discount rate of 8.6% and terminal growth of 2%. We are Sell rated. Key upside risks: 1) faster-than-expected recovery in dental implant volumes; 2) better execution of pricing and promotional strategy; 3) earlier stabilization in broader consumption trends; 4) operational efficiency gains exceeding expectations.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at <https://www.gs.com/worldwide/brazil/area/gir/index.html>. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details, a copy of the annual compliance audit report and other relevant information and disclosures can be found at this link: <https://www.goldmansachs.com/worldwide/india/research-analyst>. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks, warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment

recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at <https://www.gs.com/disclosures/europeanpolicy.html> which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs do Brasil Corretora de Títulos e Valores Mobiliários S.A.; Public Communication Channel Goldman Sachs Brazil: 0800 727 5764 and / or contatogoldmanbrasil@gs.com. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not

necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
