

XPENG INC. (XPEV/9868.HK)

Mona L03 to drive volume growth acceleration with strong orders post launch; Buy

XPeng officially launched its new SUV model Mona L03 in Munich, Germany on Jul 16, with official entry price of Rmb123.8k (compared to its pre-sale entry price of Rmb143.8k and Mona M03 official entry price at Rmb119.8k). Mona L03 received **20k / 47k non-refundable orders in 7 mins / 1 hour** post global launch (vs. **10k / 30k non-refundable orders for Mona M03 in first 52 mins / 48 hours** in 2024). This is the second model under the Mona brand for XPeng, targeting to a broader market (i.e. SUV vs. sedan) in China, per the company. We note its first model Mona M03 launch was a major success for XPeng in Aug 2024, with 1) non-refundable orders of 10k/30k in first 52 minutes/48 hours, 2) average monthly delivery of 13k in first six months, stabilizing at 12k average monthly sales LTM.

The company highlighted its **globalization strategy**, including 1) all future models will be also launched overseas; for example, the company targets to enter 65 global markets in 2026, 2) VLA2.0 model targets for roll-out in Europe in 2027, 3) the company already started to organize robotaxi fleet overseas, 4) it aims to deliver its humanoid robotics overseas in 2027, and 5) the company plans to launch its flying cars in Europe in the future. The company indicates it plans to adopt the strategy of “In Europe For Europe” supported by Munich R&D center and Magna factory in Austria.

GS analysis: We believe Mona has established itself as a strong and differentiated brand in the mass market segment, with unique positioning in smart features as well as modern design, with **Mona M03 ranking No.1** for sales volume among Rmb100–150k NEV sedans ([Exhibit 4](#)). Based on our product comp analysis of Rmb100k–150k top selling NEV SUVs, we see **Mona L03 BEV/EREV** ranks among the top models (esp. EREV version ranking top 3), with competitive strengths in range and size ([Exhibit 5](#)). We expect **Mona L03 SUV** to achieve stabilized monthly volume of 14k units, contributing 22%/23% of total sales for XPeng in 3Q26E/4Q26E, and further propel 3Q26E/4Q26E volume growth to +28% yoy/+59% yoy. In addition, we see XPeng monthly delivery well on track for recovery, achieving 16% yoy in June (from -12%/-4% yoy in Apr/May), reinforcing our Buy thesis.

Looking forward, we believe XPeng's new model cycle will start to drive an acceleration in volume growth over the following three quarters ([Exhibit 2](#) & [Exhibit 3](#)):

- 2Q26:** we expect the **GX SUV** launch in May to help volume growth to recover to the same level as 2Q25 yoy and +65% qoq. On May 20, XPeng launched its new flagship 6-seater SUV model GX, which received close to 25k non-refundable orders in within 12 hours, per the company. Based on our product comps analysis framework on recently launched 6-seater SUV models, we find GX (esp. EREV version) ranks among the top 3 out of 16 models, with balanced scores across price, range, and size;
- 3Q26E:** we expect the **Mona L03 SUV** launch in July to further propel 3Q26 volume growth +28% yoy, adding another +44% qoq. We believe Mona has established itself as a strong brand in the mass market segment, with unique positioning in smart features as well as modern design, with **Mona M03 ranking No.1** for sales volume among Rmb100-150k NEV sedans ([Exhibit 4](#)). Based on our product comp analysis among Rmb100k-150k top selling NEV SUVs, we see **Mona L03 BEV/EREV** ranks among the top models (esp. EREV version ranking top 3), with competitive strengths in range and size ([Exhibit 5](#));
- 4Q26E:** we expect **Mona L05 SUV** and **G9L SUV** to eventually bring average monthly volume to over 60k (vs. 20k in 1Q26), translating to 59% yoy volume growth.

Upcoming catalysts: (1) weekly order and monthly sales trends; (2) more upcoming orders information for Mona L03; (3) Humanoid robot showcase in 3Q26; (4) Robotaxi pilot passenger operations launch in 3Q26; (5) Mona L05 and G9L launch in 4Q26.

For 2026E full year, we continue to model (1) 20% revenue growth driven by new

model launches in both the domestic market and overseas expansion: domestically, XPeng has launched dual-energy versions for GX in May, 2 MONA SUVs and another SUV in 2H26. We forecast sales volume of 500k (+16% yoy) in 2026E. We also expect overseas revenue to contribute 20%+ of total revenue with volume doubling in 2026E; **(2) Gross margin to improve to 19.1%** in 2026E (from 18.9% in 2025) with scale economics and higher contribution from overseas sales, offsetting the pressure from cost inflation; **(3) R&D expenses to increase to Rmb12bn** in 2026E (vs. Rmb9.5bn in 2025) with increasing focus on physical AI (Rmb7bn in 2026E); **(4) Operating profit to remain largely stable at Rmb-2.8bn** in 2026E, with **positive operating cash flow**.

Investment Thesis

XPeng is among the fastest-growing pure EV makers in China with a focus on intelligent vehicle features. Since 4Q24, XPeng has shown consistent improvement in its new and refreshed model launches with Mona M03 and P7+ sales volume ranking among the top 3 in their respective segments. XPeng has also stepped up its new model launch frequency with 10 launches over 2024-26, compared to only 1-2 new models each year from 2019-2023. XPeng will now introduce 10 new + refreshed models each year to better compete in the current highly dynamic market environment. In addition, XPeng is focusing more on overseas expansion with increasing product offerings (4 models in 2026) and localized production (Indonesia, Austria and Malaysia). We are Buy rated (ADR/H share), as we see the results of a series of efforts coming through the company's product launches and overseas expansion, leading to higher visibility for sustainable sales volume growth as well as profit margin improvement going forward. XPeng is currently trading in line with its historical average forward P/S multiple over the past 1 year which we view as attractive in light of its growth trajectory. Catalysts include upcoming product launches including the sales ramp-up from new models, as well as quarterly results.

Price Target Risks & Methodology

We are Buy rated with 12m DCF-based (WACC 11.8%, TGR 3.0%) TPs of US\$23/HK\$89 for the ADR/H share. Risks: lower-than-expected sales volume; worse-than-expected price competition; weaker-than-expected market demand.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such

advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst’s judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst’s published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst’s fundamental equity rating for such stocks, which rating reflects a stock’s return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts’ fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst’s fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
