

China Insurance: Financials trip takeaways

We spent five days (May 25–29) in mainland China, meeting a broad set of financial companies, including banks, insurers, brokers, and online lending platforms. Among insurers, we met the IR and management teams of Ping An, CPIC, China Taiping, ZhongAn (not covered), China Life, NCI, and PICC P&C.

Life insurers remain confident of strong growth in the bancassurance channel and expect the tightening of channel expense supervision to benefit the large insurers. On the asset side, strong equity market performance since the end of March has driven a rebound in investment results, but insurers mostly see stable equity allocation at the current level, emphasizing a balanced portfolio between growth and dividend stocks. P&C insurers generally expect to see improvements in underwriting results, as a result of expense regulation (both auto & non-auto insurance) and reductions in claims frequency (auto insurance).

Overall, we believe industry fundamentals are solid, with continued new policy sales momentum for lifers, and profit and book value growth recovery for all insurers following the equity market rebound.

Sector takeaways

1) Investment strategy: Lifers generally hold a neutral view on the interest rate outlook, while focusing on asset and liability duration and cash flow matching. Long-term government bonds remain an important instrument to anchor asset duration. However, given that the long-term bond yield remains depressed (vs. historical levels), the focus is more on the equity investment side, especially on high-dividend yield stocks that can be held over the long term, thereby providing a bond-like yield and duration.

In the near-term, strong equity market performance since the end of March has driven a rebound in portfolio returns for all insurers. But insurers generally do not expect a material uplift in equity asset allocation (vs. the current level). Within equity investment, despite the rally in AI-related stocks, insurers are targeting a more balanced allocation between growth and value stocks. Dividend stocks remain a focus, as evident in the increase in the mix of OCI equity investment (vs. FVTPL). The target dividend yield is generally 4% or higher.

2) Bancassurance regulation and growth: The life insurers we met all welcomed the new regulation on bancassurance channel fees, issued by the NFRA in March, as they expect the more granular examination of channel fees to further encourage banks to cooperate with large insurers. That said, insurers do expect to see near-term disruptions, as sales incentives are reduced. Generally, insurers do not expect this to have a material impact on margins, as companies are likely to pass on most of the savings to policyholders.

3) Agency development: Lifers generally expect stable agent headcount over the next 2-3 years, and the focus is mostly on (high-quality) productive agents. There are targeted recruitment and training processes in place, while resource support is also tilted towards the high-quality agency team. Despite the surge in bancassurance sales, most lifers believe agents are better positioned to serve upper affluent and HNW customers.

4) Auto insurance underwriting results outlook: Excluding the potential impact from natural catastrophes, insurers generally see room for improvement in underwriting results, driven by: 1) better risk underwriting and more pricing flexibility, 2) higher

penetration and usage of ADAS features, 3) improvements in the repair process, and 4) the potential re-calibration of the risk premium. While premium growth in 2026 could be affected by a yoy decline in new car sales, insurers generally expect premium growth to recover to low-to-mid single digits in the medium term.

5) Update to the C-ROSS regime: The Phase III update for the C-ROSS regime is still under discussion, as the regulator has yet to decide on the various risk parameters. Companies expect that implementation is likely in 2H26 or 2027. For the large insurers, companies noted that current solvency ratios are well above the regulatory minimum.

Company meeting takeaways

Ping An

- Ping An reiterated its **multi-channel distribution strategy**, including agency, bancassurance, community finance, and others. In the bancassurance channel, Ping An is working with fewer than 30k bank branches, just over 10% of more than 220k bank branches in China. Ping An expects to increase branch penetration, and noted that in the last 2 years, it could add as many as 1,000 branches in a single month, although the pace of growth is likely to be slower going forward.
- **On equity investment**, Ping An reiterated a balanced strategy, with a focus on using equity as an important through-cycle instrument, providing bond-like duration and yield. On dividend stocks, the company has a diversified portfolio, not just banks. The target yield is above 4%, but the company noted that the hurdle rate could be reduced if the cost of liability continues to decline.
- **On asset quality**, Ping An continues to expect the asset management segment to provide a positive profit contribution in 2026. The company sees limited property-related impairment pressure in 2026, thanks to provisions already taken and improved market sentiment in Tier 1 and Tier 2 cities. Within the asset management segment, Ping An highlighted that the securities business achieved a high ROE in 1Q26, well above the industry average.

CPIC

- **VONB growth and margin outlook:** CPIC aims to achieve a balanced value contribution between the agency and bancassurance channels. The agency VONB margin is close to 30%, largely driven by long premium term savings products. The bancassurance margin is around 15%, and the company sees potential upside by reducing the mix of single premium policies. Participating products are an important growth driver in both channels, and CPIC sees potential for the market to evolve toward HK par products, with a low guaranteed return and diversified investment allocation.
- **On P&C**, CPIC sees potential for a further reduction in the expense ratio, thanks to tight regulation for both auto and non-auto insurance. In the NEV segment, there is room for the COR to decline as autonomous driving features improve, and the repair network and process develop. On credit guarantee insurance, CPIC sees positive

development in 2026, after a business adjustment starting from early 2025.

China Taiping

- **Bancassurance contribution:** Taiping noted that banks prefer 3- to 5-year products and struggle to sell protection products, so margin upside is limited. But there is significant volume growth potential, given that moderate deposit migration from banks can be a significant growth driver for insurers. For Taiping, bancassurance VONB contribution was c.35% in 2025, but management sees potential for this to gradually increase toward 50%. Taiping noted that the channel is dominated by the top 7 largest life insurers (including Taiping Life), following the regulatory clampdown on channel expenses.
- **Investments:** Taiping Life is cautiously optimistic on equity market performance, and holds a neutral view on rates. The focus is on duration and cash flow matching, to ensure the investment return covers the cost of liability. The company would also seek to enhance the yield on the fixed income portfolio through trading gains.

ZhongAn

- **Online health insurance:** ZhongAn (ZA) noted that health insurance in mainland China has significant development potential, while online penetration within health insurance is also low. ZA is the largest online health insurance distributor and expects to maintain strong growth momentum as the market develops.

China Life

- China Life expects **VONB growth** momentum to normalize in the coming quarters, after an exceptional 1Q26 (+75% yoy). The base effects in 2Q and 3Q are higher, and China Life also noted that the new bancassurance channel expense regulation could disrupt near-term sales momentum. Nonetheless, China Life is confident of double-digit VONB growth for FY26 and sees margin expansion, driven by 2025 repricing actions and a greater focus on long-term, regular premium policy sales.
- **Equities investment** will continue to increase as new premiums come in, but China Life sees relatively stable overall equity investment allocation. Allocation within the portfolio is diversified, tracking broad market indices, despite strong performance in the AI supply chain. China Life noted that the mix of OCI equity investment has increased, reaching c.30% of the equity portfolio, broadly in line with the industry average.

NCI

- Both **agency and bancassurance sales and VONB** are tracking well ahead of FY26 targets. Starting from 2Q26, NCI is focusing on health insurance and long-term products. Detailed regulation on the participating critical illness (CI) product has not been launched, so sales are mainly of the traditional CI product in the agency channel. The bancassurance channel is still mainly a savings-product channel.
- On **investment**, total equity investment allocation was 22% in 2025, and declined slightly in 1Q26, due to market movement. In the medium term, NCI does not have a

target level, but does not expect this to increase to the 25–30% range. NCI sees opportunities in H-shares now, especially when considering dividend yield and cash flow.

- **On dividend payout**, the 25% payout ratio in 2025 was sufficient to drive DPS growth, even off a high base in 2024. There is no decision yet on the FY26 dividend policy, but the company will take absolute DPS into consideration.

PICC P&C

- **Equity investment** is approaching 30% of the portfolio, including stakes in Huaxia Bank, Industrial Bank, PICC Life, and PICC Health. PICC P&C sees limited room for a further increase in the equity asset mix, as 30% is the cap based on its current comprehensive solvency ratio. The target investment return is 3–4% in 2026.
- PICC P&C attributed the industry-wide decline in **auto insurance premiums** in 1Q26 to the decline in new vehicle sales and the usual pricing factor changes. Management expects auto sales to recover gradually, driving improvements in auto insurance premium growth in the coming quarters.
- In terms of **underwriting results**, PICC P&C attributes its better COR to a combination of: 1) better risk pricing, 2) internal expense management, 3) a close relationship with OEMs, and 4) expertise in claims management. As the NEV market gradually matures, PICC P&C expects the claims ratio to improve broadly, and believes its competitive advantages can enable the company to continue delivering above-peer underwriting results.

Price Target Risks and Methodology - China Life Insurance Co.

We rate China Life H/A at Neutral/Neutral. Our 12-month, ROA-based target prices are HK\$28.5/Rmb42.0, implying 1.0X/1.7X FY27E P/B.

Downside risks: Further weakness in the investment market, which could reduce the solvency ratio and limit its ability to raise dividends; a further decline in the 10-year government bond yield to below 2%; weak insurance sales growth in lower-tier cities, where China Life has a more dominant market share; below-peer agent productivity gains.

Upside risks: Strong A-share performance given China Life's leverage to A-share returns; sustained double-digit NBV growth; better-than-expected shareholders' return plans; an increase in long-term bond yield.

Price Target Risks and Methodology - Ping An Insurance Group

We are Buy rated on Ping An's A and H shares. Our 12-month SOTP-based target prices are HK\$75.0/Rmb77.0, implying 1.1X/1.3X FY27E P/Bs. We value 1) Ping An Life at 1.9X/2.4X FY27E P/B, based on our ROA projection, 2) Ping An P&C at 1.0X P/B, based on FY27E ROE of 12%; and 3) Ping An Bank at 2.125X target P/PPOP (covered by Shuo Yang).

Downside risks: A further decline in operating profit and/or CSM (contractual service margin) would put downward pressure on dividend growth; further deterioration in sales mix, leading to greater sensitivity of future profit to interest rate and investment returns; further investment asset losses/impairment in non-insurance businesses, such as banking and asset management businesses.

Price Target Risks and Methodology - China Pacific Insurance

We are Buy/Neutral rated on CPIC H/A. Our 12-month, SOTP-based target prices are HK\$38.0/Rmb39.0, implying 0.9X/1.1X FY27E P/B. We value 1) CPIC Life at 1.2X/1.5X FY27E P/B, based on our ROA projection; and 2) CPIC P&C at 1.2X/1.2X P/B, based on FY27E ROE of 13.2%.

Upside risks: Faster-than-expected strong NBV growth, driven by strong new policy sales, further margin expansion and/or improving product profitability; Better-than-expected P&C underwriting results, allowing for more capital upstream to the group; More aggressive near-term dividend policy, on the back of strong profit growth; A meaningful recovery in long-term bond yields, leading to improving investment returns and long-term product profitability.

Downside risks: Inability to grow core agent headcount, leading to average or below-average NBV growth vs. leading peers; Increase in P&C underwriting losses as a result of increasing competition from medium-sized competitors; Lower dividend payout ratio as a result of higher savings product mix and capital consumption at CPIC Life; Further decline in long-term government bond yield.

Price Target Risks and Methodology - New China Life Insurance

We are Sell rated on NCI H/A. Our 12-month, ROA-based target prices are HK\$37.0/Rmb49.0, implying 0.8X/1.2X FY27E P/B.

Upside risks: Rally in the A-share market given NCI's greater leverage to investment results; cost discipline to improve long-term ROE and shareholder returns; sustained NBV growth, driven by improvements in efficiency gains; increasing asset allocation to OCI debt to mitigate negative impacts from bond yield declines; a more aggressive dividend policy than expected going forward.

Price Target Risks and Methodology - China Taiping Insurance Holdings

We are Neutral rated on China Taiping. Our 12-month, SOTP-based target price is HK\$21.0, implying 0.6X FY27E P/B. We value 1) Taiping Life at 0.7X FY27E P/B, based on our ROA projection; and 2) Taiping P&C and Taiping Re at 0.5X/0.4X P/B, based on FY27E ROE of 7.3%/6.8%.

Upside risks: Further improvement in life core solvency capital position and increase in capital upstream to the group, which could allow for higher dividend payout; Reduced capital consumption in the HK life insurance operation; Improvements in operating results in non-insurance segments; Better-than-expected investment results and normalized tax expenses.

Downside risks: Weaker-than-expected investment results dragging profit growth; Inability to maintain new policy sales growth, leading to a continued decline in CSM balance and lower-than-expected NBV; Lower dividend payout ratio, reflecting further solvency constraints and profit growth pressure from both life and non-life insurance segments.

Price Target Risks and Methodology - PICC Property and Casualty Co.

We are Buy rated on PICC P&C. Our 12-month, ROE-based target price of HK\$19.6 is based on a 0.8X P/B for the excess capital (in excess of 170% core solvency ratio) and 1.2X FY27E P/B for the underlying operation. This implies 1.2X FY27E P/B and 10X FY27E P/E.

Downside risks: No additional shareholder return initiatives; underwriting results below expectations; an increase in natural catastrophe-related claims.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Regulatory disclosures**Disclosures required by United States laws and regulations**

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Distribution of ratings: See the distribution of ratings disclosure above. **Price chart:** See the price chart, with changes of ratings and price targets in prior periods, above, or, if electronic format or if with respect to multiple companies which are the subject of this report, on the Goldman Sachs website at <https://www.gs.com/research/hedge.html>.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and

regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for “wholesale clients” within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client’s objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client’s own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs’ Australian Sell-Side Research Independence Policy Statement are available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at <https://www.gs.com/worldwide/brazil/area/gir/index.html>. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst – SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Investment in securities market are subject to market risks. Read all the related documents carefully before investing. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details can be found at: <https://www.goldmansachs.com/worldwide/india/documents/Grievance-Redressal-and-Escalation-Matrix.pdf>, and a copy of the annual audit compliance report can be found at this link: <https://publishing.gs.com/content/site/india-annual-compliance-report.html>. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for “professional investors” within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither “registered banks” nor “deposit takers” (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for “wholesale clients” (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom’s departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at <https://www.gs.com/disclosures/europeanpolicy.html> which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock’s total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region’s Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts’ investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs’ involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment

rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our

research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
