F1Q27 Earnings Review: Incremental evidence of progress in seasonally small quarter; weak DTC store comps in focus

GOOS.TO	12m Price Target: C\$11.50	Price: C\$12.97	Downside: 11.3%
GOOS	12m Price Target: \$8.25	Price: \$9.26	Downside: 10.9%

GOOS reported a healthy F1Q27 beat. Revenue growth of +10.3% Y/Y was well above GS/FactSet consensus at -1.9%/+0.6%, and adj. EPS of -C\$0.89 was above GS/consensus of -C\$0.95/-C\$0.99. There were several bright spots in the quarter, including stronger ecommerce momentum, strength in the wholesale orderbook and customer reorders, and solid momentum in Asia (particularly China). However, this is offset by a significant sequential slowing in underlying comp trends as a result of weak store traffic (particularly in EMEA), moderating growth and soft margin guidance in 2Q, and incremental tariff risk (where unmitigated pressure could be up to 200bps to FY27 margins should currently announced duties be implemented).

Management reaffirmed its LSD revenue growth and 11-12% adj. EBIT margin guide for the FY, which continue to embed tailwinds from 2026 cost headwind recapture and pricing actions taken earlier in the year. That said, macro remains uncertain and traffic trends remain in focus as we move into the seasonally important fall/winter selling season.

We step away from the quarter with our view largely unchanged. We are incrementally encouraged by the trajectory of the company's wholesale and ecommerce businesses, and believe initiatives are gaining traction evidenced by improving conversion. That said, the deceleration in DTC comp momentum is somewhat worrying (-3.2% Y/Y vs. 10.0% in F4Q), US traffic trends remain weak, and EMEA demand remains a laggard. Additionally, part of the outperformance this quarter was as a result of a wholesale timing shift. We look for evidence of sustainable and profitable growth while leveraging SG&A spend (beyond one-time cost recapture) to get more positive from here.

What happened

- **F1Q results:** Consolidated sales grew 10.3% Y/Y (8.6% ex-FX) to \$118.9mn, ahead of GS/consensus at \$105.8mn/\$108.4mn, with the beat driven by wholesale acceleration and strength in China / Asia Pacific. Wholesale revenues increased 66.5% Y/Y (65.4% ex-FX) to \$29.8mn, above GS/consensus of \$17.7mn/\$16.8mn. DTC sales grew 8.6% Y/Y (6.7% ex-FX) to \$84.8mn, above GS/consensus estimates of \$79.8mn/\$79.3mn, with comp sales of -3.2% Y/Y. Other revenue fell -63.6% Y/Y (-64.4% ex-FX) to \$4.3mn vs. GS/consensus at \$8.3mn/\$8.5mn. Gross margin of 62.4% expanded 100bps Y/Y and was reported above GS/consensus of 62.1%/60.6%, largely driven by favorable channel and region mix. Adjusted EBIT margin came in at -87.3%, above GS/consensus at -104.1%/-109.7%. Inventories came in +11.5% Y/Y vs. GS expectations of +10.0% Y/Y.
- **Outlook:** Looking ahead, management reiterated guidance. GOOS continues to expect LSD% Y/Y revenue growth vs. GS/consensus at 1.7%/2.4%. The company also reaffirmed its expectation for adj. EBIT margin to range between 11%-12%, which compares to GS/consensus at 10.9%/10.7%. Assumptions underlying management's outlook remain unchanged, though the company did indicate that they expect no material impact from incremental US tariffs announced on 7/20/26 regarding Canada/US trade, which would currently be expected to apply to a range of Canadian goods including certain of their products.

Estimates, valuation, and key risks

We update our FY27/FY28/FY29 EPS estimates to C\$1.07/C\$1.13/C\$1.19 from C\$1.03/C\$1.12/C\$1.18 prior to reflect the F1Q result, stronger wholesale trends, weaker near-term margin delivery as a result of 2Q marketing investments, and other minor adjustments to our margin forecasts. We modestly lower our 12-month price target to C\$11.50/US\$8.25 from C\$12.00/US\$8.50 prior as we roll forward our Q5-Q8 EV/EBITDA valuation framework. We lower our target multiple from 4.00x to 3.75x to reflect a higher degree of uncertainty given weaker trends in DTC comps and a choppy macro backdrop across several of GOOS's key regions.

Key upside risks include: (1) reacceleration of brand momentum; (2) improved margin profile; and (3) faster-than-anticipated improvement in global / luxury consumer spending.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
