

Xiaomi Corp. (1810.HK)

Sharpening the scene ahead of SkyNomad launch and continued AI progress; Buy

1810.HK 12m Price Target: **HK\$40.00** Price: **HK\$25.84** Upside: **54.8%**

On Jul 10, Xiaomi filed **SkyNomad N70 & N90** models as part of its 2nd NEV series with China's Ministry of Industry and Information Technology (MIIT), which are positioned as **intelligent, configurable and spacious SUVs** that accommodate a range of use cases beyond solely family/business needs, and cater to different consumer demand from SU7/YU7 which focus on driving dynamics.

This kicked off a catalyst-rich 3Q as discussed in our Setting the Scene note, which we believe may provide a potential turnaround opportunity for the share price from both narrative and financial perspectives (share price +19% QTD vs. HSTECH +6%). Specifically, we highlight:

- **Multiple complementary variants to address broader demand:** We see SkyNomad N90 as the **flagship long wheelbase 5/7-seater** and SkyNomad N70 as a **standard wheelbase 5-seater** catering to small families with a focus on urban agility, aiming for a high-value-for-money smart mobility experience. Size wise, SkyNomad N70 is comparable to Li Auto L6/L7 and Seres AITO M6/M7, while N90 is comparable to Li Auto L9, Seres AITO M9, Zeekr 9X, etc. Additionally, SkyNomad N90 Max provides innovative optional features such as a **built-in rooftop tent** which turns the SUV into a big camper (Exhibit 3).
- **Long range support, key value proposition to attract ICE consumers:** SkyNomad carries a large-capacity battery (52/76kWh for N70 and 76kWh for N90) enabling a 265-370km range, **the longest pure-electric range among its peer models**, along with a 1.5T, 112kW range extender provided by Harbin Dongan Auto Engine (600178.SS, Not Covered). Despite a bigger battery capacity, vehicle weight of SkyNomad is comparable to peers, which we partially attribute to Xiaomi's innovative

Source: Company data, Goldman Sachs Research estimates.

left-and-right split layout for EREV's front compartment to enhance structural safety and space utilization, which also reduces overall vehicle power consumption through **lightweighting**.

- **Intelligent and fully configurable interior, a refreshing feature on the new manufacturing platform:** As per management, interior configuration including functionality and use scenarios is the starting point of SkyNomad vehicle design. SkyNomad features **a flat floor with rails on which different equipment can slide**, enabling seamless and intelligent interior space transformation. Xiaomi showcases various configurations (Exhibit 4) with a lie-flat bed, a workstation, a 2-person meeting setup, and four seats around a central table, among other possibilities.
- **What else are we looking for?** We expect the official launch of SkyNomad **by Aug-end** and see below factors as critical to its success. **1) Mechanical durability of its configurable interior & EREV system;** we draw confidence from Xiaomi's extensive road testing over the past two years and leading smart manufacturing capabilities; **2) Integration with Xiaomi's AIoT ecosystem;** **3) PR/marketing strategy and competition** pre-/post-launch; **4) Balance between order momentum and manufacturing capability ramp-up;** we believe Xiaomi has enhanced abilities to smooth peak orders at initial launch and sustain healthy order volume post initial launch (e.g. SU7 new facelift) meanwhile scaling up manufacturing capacity.
- **GSe 240k volume in 2026E or 500k in the bull-case:** As detailed in our prior note, we expect Xiaomi will likely price SkyNomad N70 at a competitive level as the volume anchor, to capture the entry-level premium space (e.g. starting from Rmb200k+) enabled by supply chain capabilities and more favorable battery costs, yet offer a wide pricing spectrum for higher-end complementary variants and features (e.g. N90 up to Rmb400-500k) to establish premium parity with peers. **We model 110k/240k delivery volume in 2026E/27E for SkyNomad**, with 2027E volume equivalent to **15%** of the 1.6mn+ SUV units (ex. BEVs) with starting prices at Rmb200-400k sold in 2025 (Exhibit 6); **in our bull case**, if Xiaomi is able to capture part of the trade-up/ICE demand from the mass market, we could see potential for **c.500k volume** in 2027 based on 10% of the 5mn SUV units (ex. BEVs) with starting price from Rmb100-400k.

Apart from EV, we take confidence from recent AI developments at Xiaomi which we believe are underappreciated by the market. We estimate that MiMo might be at the run rate of **c.6-7tn daily tokens** currently led by **coding** and **agentic** tasks. While MiMo continues to push the **efficiency frontiers of LLMs in terms of inference cost** thanks to inference engineering optimization (e.g. **MiMo-V3** may adopt a more aggressive 11:1 sparsity ratio), **pricing power also emerges with V2.5-Pro-UltraSpeed** that charges US\$1.3/US\$2.6 per mn input (cache miss)/output tokens (only cheaper than GLM-5.2 and Qwen3.7-Max), by offering 1k TPS throughput on standard commodity hardware. That said, we see Xiaomi's positioning within the LLM industry different from the LLM pure-plays, with its AI monetization strategy taking shape across to-C, to-B and in the physical world (details in our Setting the Scene note).

AI LLMs: MiMo-V2/2.5 sees surging API/token consumption; MiMo-V3 underway with enhanced cost efficiency

- **Surging API/token consumption:** As per company, MiMo LLM token volume

exceeded 1tn on Apr 2, and **Jun monthly API request volume grew 27x vs. Jan** or 6-7x vs. Apr (**Exhibit 8**); assuming a largely linear relationship between API calls and token consumption, we estimate that MiMo may be at the run rate of **c.6-7tn daily tokens**. Similar growth trajectory is also seen at third-party unified API and marketplace such as OpenRouter where MiMo's average daily token volume grew to 600bn in Jun (4x vs. Apr, or close to 10% of total MiMo token consumption by GSe) and token share on the platform increased to c.9% in Jun led by **coding** and **agentic** tasks (13%/10% token share).

Exhibit 8: Xiaomi MiMo API requests grew 27x in Jun vs. Jan, or 6-7x vs. Apr

Source: Company data

Exhibit 9: MiMo's token share on OpenRouter increased to c.9% in Jun

Source: OpenRouter, Data compiled by Goldman Sachs Global Investment Research

Exhibit 10: Coding and agentic tasks account for close to 80% of MiMo-V2.5 token usage on OpenRouter

Latest token usage breakdown on OpenRouter (blue = code, green = agent)

Source: OpenRouter, Data compiled by Goldman Sachs Global Investment Research

Exhibit 11: MiMo-V2.5 has higher token share in coding and agentic tasks on OpenRouter

Latest token usage breakdown on OpenRouter by model

Source: OpenRouter, Data compiled by Goldman Sachs Global Investment Research

- **At the LLM cost efficiency frontiers:** Despite 27x API request growth in Jun vs. Jan, **the number of inference chips utilized only grew 3x** during the period as per company, thanks to inference engineering optimization and specifically Hybrid SWA (Sliding Window Attention) which reduces the computational complexity of attention to nearly linear while still maintaining the ability to model long-range dependencies. Recognized as **the lowest-inference-cost domestic model** along with DeepSeek as per China OSS Promotion Union, MiMo has passed through cost

efficiency (e.g. effective KVCache capacity up almost 5x, server-side cache hit rates avg. 93-95%) to developers, by announcing up to **99% permanent pricing reduction** to global lows in May.

- **Pricing power emerges with MiMo-V2.5-Pro-UltraSpeed:** The 1k TPS throughput model (requiring only standard commodity hardware, i.e. a single 8-GPU node) is priced at 3x the standard V2.5-Pro rate (its US\$1.3/US\$2.6 input/output price only follows GLM-5.2 and Qwen3.7-Max, [Exhibit 14](#)), while delivering 10x improvement in absolute throughput. MiMo on June 23 announced the extension of V2.5-Pro-UltraSpeed beta access, after receiving 66k+ usage applications within <1 month.

Exhibit 12: Compared to other Chinese LLMs, MiMo-V2.5 series differentiates itself in terms of cost (MiMo-V2.5) and throughput/speed (MiMo-V2.5-Pro-UltraSpeed)

Source: Company data, Artificial Analysis, Goldman Sachs Global Investment Research

Exhibit 13: MiMo provides relatively high cache hit ratio among peers based on OpenCode data, a key factor that drives lower inference cost

Source: OpenCode, Data compiled by Goldman Sachs Global Investment Research

Exhibit 14: Input and output prices of major Chinese LLMs (US\$ per 1M tokens)

Source: Artificial Analysis, Data compiled by Goldman Sachs Global Investment Research

- **More cost-efficient MiMo-V3 series underway:** As per company at the International Conference on Machine Learning (ICML) 2026, the upcoming V3 model will feature **HySparse** (Hybrid Sparse Attention), a new architecture that was introduced by Xiaomi LLM-Core team in Feb 2026 and enables sparse attention layers to reuse the full attention KV cache, thereby reducing both computation and memory. Compared to the 7:1 sparsity ratio for V2/V2.5, MiMo-V3 may adopt a more aggressive 11:1 sparsity ratio, implying potential to further push efficiency

frontier and reduce inference costs.

Investment Thesis - Xiaomi Corp.

We see Xiaomi, which is the world's #3 smartphone brand and leading consumer AIoT/NEV platform, as still in the early stages of a multi-year ecosystem expansion against the backdrop of its "Human x Car x Home" strategy. In the longer term, we believe Xiaomi's robust balance sheet, strong capabilities in ecosystem integration, and cost advantages owing to scale and deep involvement in the EV supply chain will increase its competitiveness and appeal in EVs, and that Xiaomi is well positioned to build one of the largest consumer physical intelligence ecosystems globally leveraging its interconnected consumer terminals. We are Buy rated.

Price Target Risks and Methodology - Xiaomi Corp.

We are Buy rated on Xiaomi with a 12-month target price of HK\$40, based on a SOTP valuation methodology: 1) 16x target 12m-fwd EV/NOPAT on Xiaomi core; 2) DCF-based valuation for Xiaomi EV of US\$42bn (12% WACC and 3% TGR); 3) a 10% holdco discount. Key downside risks: 1) More intense competition and weaker market share gains within the global smartphone industry. 2) Higher GPM pressure on the smartphone/EV business. 3) Below-expected execution on Xiaomi brand premiumization and the EV business. 4) Intensifying geopolitical risks and regulatory uncertainties. 5) Softer macro environment and weaker smartphone/IoT demand. 6) FX fluctuation.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Company-specific regulatory disclosures

The following disclosures relate to relationships between The Goldman Sachs Group, Inc. (with its affiliates, "Goldman Sachs") and companies covered by Goldman Sachs Global Investment Research and referred to in this research.

Goldman Sachs has received compensation for investment banking services in the past 12 months: Xiaomi Corp. (HK\$25.84)

Goldman Sachs expects to receive or intends to seek compensation for investment banking services in the next 3 months: Xiaomi Corp. (HK\$25.84)

Goldman Sachs has received compensation for non-investment banking services during the past 12 months: Xiaomi Corp. (HK\$25.84)

Goldman Sachs had an investment banking services client relationship during the past 12 months with: Xiaomi Corp. (HK\$25.84)

Goldman Sachs had a non-investment banking securities-related services client relationship during the past 12 months with: Xiaomi Corp. (HK\$25.84)

Goldman Sachs had a non-securities services client relationship during the past 12 months with: Xiaomi Corp. (HK\$25.84)

Goldman Sachs makes a market in the securities or derivatives thereof: Xiaomi Corp. (HK\$25.84)

Distribution of ratings/investment banking relationships

Goldman Sachs Investment Research global Equity coverage universe

	Rating Distribution				Investment Banking Relationships		
	Buy	Hold	Sell		Buy	Hold	Sell
Global	50%	34%	16%		65%	60%	45%

As of April 1, 2026, Goldman Sachs Global Investment Research had investment ratings on 3,074 equity securities. Goldman Sachs assigns stocks as Buys and Sells on various regional Investment Lists; stocks not so assigned are deemed Neutral. Such assignments equate to Buy, Hold and Sell for the purposes of the above disclosure required by the FINRA Rules. See 'Ratings, Coverage universe and related definitions' below. The Investment Banking Relationships chart reflects the percentage of subject companies within each rating category for whom Goldman Sachs has provided investment banking services within the previous twelve months.

Price target and rating history chart(s)

The price targets shown should be considered in the context of all prior published Goldman Sachs research, which may or may not have included price targets, as well as developments relating to the company, its industry and financial markets.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at <https://www.gs.com/worldwide/brazil/area/gir/index.html>. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details, a copy of the annual compliance audit report and other relevant information and disclosures can be found at this link: <https://www.goldmansachs.com/worldwide/india/research-analyst>. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at <https://www.gs.com/disclosures/europeanpolicy.html> which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
