

Pharmaceutical Sector Weekly

June 15-19: Sector likely to remain weak, but look for share prices to rise in 2H 2026

The pharmaceutical sector rose 0.8% WoW in the week of June 15-19, underperforming TOPIX (+4.2%). Monetary policy events happened in both Japan and the US during the week, but the Nikkei Stock Average closed at an all-time high on June 19 after the market shifted to a risk-on attitude as the Middle East outlook improved. However, buying was still concentrated in AI and semiconductor stocks, with the pharmaceutical sector lagging notably. Within the sector, Sumitomo Pharma and Kyowa Kirin outperformed TOPIX. In particular, Kyowa Kirin was the sector's best performer over the past month. Despite the uncertain medium- to long-term outlook after rocatinlimab development was halted, we believe the bad news has run its course in the near term, and this might be having a positive impact. For Kyowa Kirin, our focus is on Phase 2 study results for KHK4951 (wet age-related macular degeneration, diabetic macular edema). We think data might be presented at an academic conference in October, and thus will look to confirm this at 2Q (April-June) results. We expect the overall pharmaceutical sector to remain weak for some time, but will look for April-June results and the catalysts and events expected in 2H 2026 (Figures 7-10) to cause share prices to rise.

- **Nippon Shinyaku:** There was an update on June 17 regarding the lawsuit filed by Capricor Therapeutics against Nippon Shinyaku concerning deramiocel. See our report [here](#).

Important Disclosures

Company-Specific Disclosures: J.P. Morgan does and seeks to do business with companies covered in its research reports. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of this report. Investors should consider this report as only a single factor in making their investment decision. Important disclosures, including price charts and credit opinion history tables (if applicable), are available for compendium reports and all J.P. Morgan-covered companies, and certain non-covered companies, by visiting <https://www.jpmm.com/research/disclosures>, calling 1-800-477-0406, or e-mailing research.disclosure.inquiries@jpmorgan.com with your request.

Explanation of Equity Research Ratings, Designations and Analyst(s) Coverage Universe:

J.P. Morgan uses the following rating system: Overweight (over the duration of the price target indicated in this report, we expect this stock will outperform the average total return of the stocks in the Research Analyst’s, or the Research Analyst’s team’s, coverage universe); Neutral (over the duration of the price target indicated in this report, we expect this stock will perform in line with the average total return of the stocks in the Research Analyst’s, or the Research Analyst’s team’s, coverage universe); and Underweight (over the duration of the price target indicated in this report, we expect this stock will underperform the average total return of the stocks in the Research Analyst’s, or the Research Analyst’s team’s, coverage universe. NR is Not Rated. In this case, J.P. Morgan has removed the rating and, if applicable, the price target, for this stock because of either a lack of a sufficient fundamental basis or for legal, regulatory or policy reasons. The previous rating and, if applicable, the price target, no longer should be relied upon. An NR designation is not a recommendation or a rating. Some stocks under coverage have a rating but no price target; in these cases, we expect the stock will outperform/perform in line/underperform the average total return of the stocks in the Research Analyst’s, or the Research Analyst’s team’s, coverage universe of the relevant duration of the region. In our Asia (ex-Australia and ex-India) and U.K. small- and mid-cap Equity Research, each stock’s expected total return is compared to the expected total return of a benchmark country market index, not to those Research Analysts’ coverage universe. If it does not appear in the Important Disclosures section of this report, the certifying Research Analyst’s coverage universe can be found on J.P. Morgan’s Research website, <https://www.jpmorganmarkets.com>.
