

Jun Check-in & Corp Day Wrap: Improvement MoM, but still soft; Corp Day cites strong momentum on Value Retailers by F&B brands and caution on pricing with moderating cost pressure

reallocation from channel rebates to manage expense level). For the full year, Mengniu/Yihai/Wanchen/Yankershop/CR Beer expect expense ratios to benefit from spending discipline/efficiency gains/op leverage, with beverage still subject to competition/fridge investment phasing in 2H26. **5) Channel and format expansion a more meaningful growth lever:** Value retailers remain the fastest-growing channel. Tingyi is seeing high-DD% growth YTD in this channel, which now contributes HSD%/3% of noodle/beverage sales. CR Bev signed a partnership with Wanchen this year and is supplying differentiated SKUs. Yankershop/Weilong shared continued fast scaling in value retailer channels with continued SKU breadth expansion. **6) Enhancing shareholder return remains a key support:** Yihai/Tingyi remain committed to maintaining a high payout ratio (at c.100%) and CR Beer/Mengniu are committed to steady growth in DPS yoy, while CR Beverage committed to a three-year 2026-28 dividend plan along with a share buyback and Eastroc is considering a L-T commitment on dividend payout along with share buyback as well. Weilong is considering a special dividend.

June Check-In: Our channel checks and Corp Day takeaways indicate sequential MoM improvement in June compared to the challenging May. In particular, **beer trends showed sequential improvement from May but still challenging** with Tsingtao seeing a sequential improvement to largely flattish volume yoy in June and CR Beer was relatively resilient, while Budweiser/Chongqing saw declines sequentially narrowed MoM. **Dairy** saw continued resilient performance with LSD% liquid milk sales growth for Mengniu/Yili, while **Haitian** saw better performance in June vs. May/April despite the company's heightened focus on a healthy channel inventory in end-2Q. **Anjoy's** sales growth recovered to 10%+ in June on a low base. **Value retailers continued aggressive expansion** with 1,000+~1,500+ new openings monthly for leading brands in May/June, while per store daily GMV/SSSG were under impact of unfavorable weather, especially in the 2H of June. Guoquan June SSSG also declined by low teens% under high comp base/weather impact. **Within Snacks brands**, Chacha was the outperformer, showing acceleration in June, which we attribute to easier competition and company's proactive collaboration with value retailers. **For beverages, however, some players saw MoM performance holding steady or slowing for June likely on still weak pax mobility:** Nongfu's overall sales grew in the low-teens% driven by strong sugar-free tea (Oriental Leaf up 40%) despite a likely decline in water in May/June, while Eastroc saw a sequential slowdown in June with shipment pace control. Tingyi maintained LSD% growth in beverages mainly supported by Tea with direct end-consumer promotions, likely gaining share from UPC.

Into July and 3Q26, we highlight: **1)** A continued low base for on-trade channels (2025 Jul/Aug/Sep catering retail sales at 1.1%/2.1%/0.9% yoy) and even lower base for Spirits and snacks; **2)** Weather conditions and consumption sentiment remain critical swing factors for beverages/beer during peak seasons; **3)** Raw material cost trend sequentially eases though pricing power remains limited (PET price retreated to Rmb7.2k/t recently from Rmb9.6k/t peak in early May); Konjac/Sunflower seeds are trending lower as are snacks; **4)** Value retailers store expansion in 3Q and stabilization of per-store GMV/SSSG trends remain key.

Key stock ideas (Buys): We continue to highlight **F&B value retailers (Busy Ming/Wanchen)** with accelerating store openings and **L-T substantial room** for further penetration and category expansion, **dairy (Mengniu)** on steady demand recovery. We

continue to like **Haitian-H (on CL)/Yihai** on solid execution of share gain and dividend support. We upgrade Chacha ([link](#)) from Sell to Buy, given its recovering pricing power from easier competition coupled with cost tailwinds. We also reiterate our constructive view on **Moutai/CR Beer/Yankershop**.

The authors would like to thank Lily Qi for her contribution to this report.

Jun Check-in: Sequential improvement MoM though still soft; Dairy more resilient; Value Retailers further accelerating store openings in May

June trends by subsector based on channel checks:

- **Beer** volumes showed sequential improvement. **Tsingtao's** volume was largely flattish in June vs. HSD% decline in May/Apr, **CR Beer** continues to outperform peers with slightly faster MoM growth, and **Budweiser's** volume decline remained under pressure but narrowed vs. low teens% decline in Apr/May. Chongqing's volume decline also sequentially narrowed vs. May.
- **Beverages** sell-through trends remained mixed: **Nongfu's** overall sales grew in the low-teens% in both May/June, while bottled water sales slowed down to a decline in June though sugar-free tea sustained stellar momentum at 40% yoy. **Tingyi** saw stable trends with LSD% growth for both noodles and beverages in May/June mainly supported by Tea. June largely maintained the trend in May. **UPC** beverage sales remained soft at LSD% declines in May/June. **Eastroc** experienced a sequential slowdown in June compared to May, while **CR Beverage** 2Q performance was soft with water down SD% and other beverages down DD%.
- **Liquid milk** demand continued its gradual recovery with both Mengniu and Yili recording LSD% positive sales growth in June, sequentially improved vs. May, likely on Dragon Boat Festival calendar shift.
- **Condiments: Haitian** sales growth moderated in 2Q26 but with June/May trend slightly better than Apr; while **Jonjee** experienced a MoM slowdown in May/June vs. April due to higher comp base. Yihai's third-party sales growth remains solid at HSD~10% yoy (vs. May at HSD% growth).
- **Frozen food: Anjoy** up 10~15% in June on a low base, despite improving vs. HSD% in May.
- **Value retailers** maintained a rapid store opening pace, with Wanchen opening no less than 4.7k gross stores/4.1k net openings in 1H26, and maintaining healthy SSSG. Busy Ming also maintained solid store open pace, with positive SSSG as well.
- **Snack brands** saw generally soft trends in June, with Weilong under more pressure but ChaCha's growth accelerated.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DA CF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Distribution of ratings/investment banking relationships

Goldman Sachs Investment Research global Equity coverage universe

	Rating Distribution				Investment Banking Relationships		
	Buy	Hold	Sell		Buy	Hold	Sell
Global	50%	34%	16%		65%	60%	45%

As of April 1, 2026, Goldman Sachs Global Investment Research had investment ratings on 3,074 equity securities. Goldman Sachs assigns stocks as Buys and Sells on various regional Investment Lists; stocks not so assigned are deemed Neutral. Such assignments equate to Buy, Hold and Sell for the purposes of the above disclosure required by the FINRA Rules. See 'Ratings, Coverage universe and related definitions' below. The Investment Banking Relationships chart reflects the percentage of subject companies within each rating category for whom Goldman Sachs has provided investment banking services within the previous twelve months.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or

policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all

research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators.
