1H26 Results Preview: BD Deals to alleviate Pharma sales; CDMOs solid

CITI'S TAKE

We expect leading CDMO companies may see beat in 1H25, resting on strong backlog growth. Some leading pharmas/biopharma to miss revenue in 1H26, despite episodic BD/out-licensing deals providing bottom-line support. Medical device names are likely to see mixed results – key factors are FX loss impact and domestic ASP pressure. Hospitals and distribution continue to face headwinds from strict medical insurance budget control. Consumer-facing sub-sectors — Medical Aesthetics (Imeik, Bloomage), Healthcare Services (Aier, Topchoice), and TCM (DEEJ) — remained broadly soft in 1H26. See 30/90-day catalyst watches: +ve: WuXi Bio / WuXi AppTec/ Pharmaron/ Tigermed/ SBP/ MicroPort Medbot/ Yifeng; -ve: 3S Bio, PAGD, Weigao, United Imaging.

CRO/CDMO: strong results confirmed; potential guidance uplift in focus — Following positive results, market attention shifts to FY26 and FY27 outlook. **WuXi AppTec** could deliver adj. net profit beat, with TIDES strength and funding recovery as key drivers; mgmt. likely to lift guidance after result. We expect revenue beat for **WuXi XDC** on strong ADC/XDC momentum. **WuXi Bio's** revenue should be in-line; adjusted profit intact despite headline drag from FX/FV losses. **Tigermed's** revenue should be in-line with net profit dragged by fair value losses in 2Q26, but revenue and gross margin expansion remain on track. **Pharmaron's** profit alert showed inline revenue and adj. net profit; new orders grew strongly by 30%+ yoy in 1H26.

Pharma/Biopharma: BD deals differentiate; beats & misses — Anti-corruption campaign continued to disrupt hospital-channel sales in 2Q26. We expect **SBP** to beat, aided by a US\$135mn upfront fee from Sanofi; **Hansoh** to beat on strong EGFR TKI ramp-up; and **Junshi** to beat in revenue on continued PD-1 ramp-up. **Hengrui** could post a revenue miss as anti-corruption impact was more pronounced than expected, though net profit was cushioned by the Kailera IPO gain. **Huadong Medicines** missed as the company proactively destocked distribution channels on GPO pressure. **3S Bio** might miss driven by TPO destocking ahead of the 2026 NRDL cycle. **CMS** could miss. We expect **Fosun Pharma, CSPC, and Innovent** to be broadly in-line.

Medical Device: overseas remains the growth engine; domestic mixed — **United Imaging** could miss on both revenue and profit — slower-than-expected domestic revenue growth, higher R&D/selling expense and FX losses. **Mindray** should be in-line; domestic IVD led the growth and overseas momentum remains strong. We anticipate **MicroPort Scientific** and **MicroPort MedBot** to deliver in-line results, confirming fundamental turnarounds. **Weigao** could miss as VBP impact was worse than expected on both revenue and margin.

Distribution/Pharmacy: Hospital-end under pressure; leading retail recovery on track — **Sinopharm** might miss on heavier medical insurance budget control and local government fiscal pressure. **Yifeng Pharmacy** should be in-line with SSSG recovery on track.

Healthcare Service: ASP pressure stabilizes; consumer spending sluggish — For **Hygeia**, we expect revenue miss but earnings beat, as margin improvement on efficiency gains and ASP stabilization. **Jinxin** should be in-line, with Chengdu performance remaining sluggish despite Shenzhen and US recovery. **Aier** is likely to miss as surgery volume slowed from May and a one-off tax payment pressured margins. **Gushengtang** should be in-line; patient volume sustained 15%+ YoY growth in 2Q26 though ASP was slightly dragged by consumer health mix. **PAGD**'s revenue could miss while net profit might be inline on margin improvement. **Topchoice** should be broadly in-line.

Medical Aesthetics: consumption headwinds persist — **Imeik** is likely to miss on net profit as core product (Hearty, CureWhite) sales pressure was worse than expected with associated margin contraction. We think **Bloomage** will miss as weak consumption continued particularly in skincare.

TCM: overall lackluster 1H26E — **CR999** and **Tasly** reported 1H26 preliminary results with weak topline; Tasly delivered strong net profit growth driven by higher GM, while CR999's net profit was dragged by net loss of KPC. **DEEJ** is likely to miss due to mild Ejiao series growth in 2Q26 despite a relatively low base.

Adding Downside 90-Day Catalyst Watch on Huadong Medicine (000963.SZ)

Direction: Downside
Duration: Within 90 Days
Catalyst: Earnings

We open a 90-day Downside Catalyst Watch on Huadong Medicines. The key catalyst is its upcoming 1H26 results, which could miss consensus as the company proactively destocked distribution channels on GPO pressure. Huadong has 7 drugs included in the 12th drug GPO scope, and we estimate they held ~7% of 2026E revenue. Though the stock price was up 10% along with the rebound of the whole industry, we expect the upcoming miss in 1H26 earnings can be a negative catalyst for the stock price.

Adding Upside 90-Day Catalyst Watch on MicroPort MedBot (2252.HK)

Direction: Upside
Duration: Within 90 Days
Catalyst: Earnings

We are initiating a 90-day Upside Catalyst Watch on MicroPort MedBot. We reckon the recent share price retreat as profit taking after the order number disclosure by the end of 1H26. However, we expect the key catalyst will be the forward-looking guidance provided at the post-earnings call following 1H26 results. We expect management to confirm continued strong overseas order momentum and, critically, raise its global installation guidance above the previous target of 200 units for FY26. Such a guidance raise would serve as a powerful confirmation of the company's accelerating global commercialization trajectory, likely acting as a significant re-rating event and driving positive estimate revisions across the Street.

Adding Upside 30-Day Catalyst Watch on Pharmaron (3759.HK)

Direction: Upside
Duration: Within 30 Days
Catalyst: Earnings

We are initiating a 30-day Upside Catalyst Watch on Pharmaron-H. Despite share price already up ~54% in the past month, at 18x FY26E P/E, the valuation remains attractive. The key catalyst we are looking for is its upcoming 1H26 results with strong order growth momentum. The company's safety assessment business stands to benefit additionally from rising non-human primate prices in China, a tailwind that supports both pricing power and revenue visibility. Separately, overseas innovative drug funding in the primary market continued to rebound in 1H26, which bodes well for CRO demand recovery. Together, we think these drivers could lead to a better-than-expected 2H26 outlook.

Adding Downside 90-Day Catalyst Watch on Ping AN Healthcare and Technology (1833.HK)

Direction: Downside
Duration: Within 90 Days
Catalyst: Earnings

We are initiating a 90-day Downside Catalyst Watch on Ping An Health. The key catalyst is the upcoming 1H26 results, where we expect revenue to miss consensus driven by a reduction in non-core revenue. This also raises the risk of a FY26 revenue guidance cut. While earnings may remain broadly in-line, underpinned by continuous margin improvement, we believe a revenue miss will still act as a negative catalyst. Despite the share price having declined ~53% over the past six months, the stock continues to trade at ~30x FY26E P/E, a valuation that reflects investors' demand for both topline and bottom line growth — leaving limited room for a revenue shortfall without further de-rating pressure.

Adding Downside 90-Day Catalyst Watch on Shandong Weigao Group (1066.HK)

Direction: Downside
Duration: Within 90 Days
Catalyst: Earnings

We are initiating a 90-day Downside Catalyst Watch on Weigao. We expect continued pressure on both revenue and gross margin, driven by the expanded scope of volume-based procurement (VBP) since 4Q25, which is compressing pricing across key product categories. Compounding the revenue headwind is a lack of meaningful new product launches, leaving the company without a near-term growth catalyst to offset structural pricing pressure. We believe 1H26 results are at risk of missing consensus, and weak guidance for 2H26 could further weigh on sentiment and trigger a downward re-rating.

Adding Upside 90-Day Catalyst Watch on Sino Biopharmaceutical (1177.HK)

Direction: Upside
Duration: Within 90 Days
Catalyst: Earnings

We open a 90-day Upside Catalyst Watch on SBP. The key catalyst is its upcoming 1H26 results, which could beat consensus. GSK's bepirovirsen, Trelegy Ellipta and Anoro Ellipta (CSO agreement with SBP) are likely to contribute revenue and profit for SBP in 2H26.

Adding Downside 90-Day Catalyst Watch on Sinopharm (1099.HK)

Direction: Downside
Duration: Within 90 Days
Catalyst: Earnings

We are initiating a 90-day Downside Catalyst Watch on Sinopharm. The key catalyst is the upcoming 1H26 results, where we see meaningful downside risk to both revenue and margins. The company's distribution business faces a dual headwind: 1) tight medical insurance budgeting and local government fiscal constraints are compressing product ASP; and 2) the intensifying anti-corruption campaign is disrupting commercial activities and adding further pressure on topline growth. Together, these structural pressures are likely to weigh on profitability, and disappointing 1H26 results could trigger negative estimate revisions and a de-rating of the stock.

Adding Upside 90-Day Catalyst Watch on Tigermed (300347.SZ)

Direction: Upside
Duration: Within 90 Days
Catalyst: Earnings

We open a 90-day Upside Catalyst Watch on Tigermed. The key catalyst we are looking for is its upcoming 1H26 results with order growth acceleration. Separately, we saw domestic innovative drug funding in primary market almost tripled in 1H26. With lower-price projects gradually digested by revenue and order price lift from 1Q26, we expect faster margin ramp-up from 2H26.

Adding Downside 90-Day Catalyst Watch on United Imaging (688271.SS)

Direction: Downside
Duration: Within 90 Days
Catalyst: Earnings

We are initiating a 90-day Downside Catalyst Watch on United Imaging. While overseas revenue momentum remains intact, we see downside risk to 1H26 net profit from two key pressures: 1) FX losses weighing on the bottom line as the RMB strengthens; and 2) slower-than-expected domestic revenue recovery, driven by average selling price (ASP) pressure amid an expanding volume-based procurement (VBP) environment. These factors could result in a net profit miss despite resilient top-line performance overseas, potentially triggering negative estimate revisions and a de-rating of the stock.

Adding Upside 90-Day Catalyst Watch on WuXi AppTec (2359.HK)

Direction: Upside
Duration: Within 90 Days
Catalyst: Earnings

We open a 90-day Upside Catalyst Watch on Wuxi Apptec. The key catalyst we are looking for is its upcoming 1H26 results and potential FY26 guidance lift with strong backlog growth. Our 2026 revenue and EPS estimates are 4%/6% higher than VA consensus.

Adding Upside 90-Day Short-Term View on Wuxi Biologics (2269.HK)

Direction: Upside
Duration: Within 90 Days
Category: Earnings

We open a 90-day Upside Catalyst Watch on Wuxi Biologics. The key catalyst we are looking for is its upcoming 1H26 results call and potentially stronger-than-expected 2H26 outlook.

Adding Upside 90-Day Catalyst Watch on Yifeng Pharmacy Chain (603939.SS)

Direction: Upside
Duration: Within 90 Days
Catalyst: Earnings

We are initiating a 90-day Upside Catalyst Watch on Yifeng Pharmacy. The key catalyst is the upcoming 1H26 results and post-earnings call commentary. We will look for: 1) a continued recovery of same-store sales growth driven by a structural recovery in patient traffic, as continuous exit of small players; and 2) clearer management guidance on the M&A pipeline and market consolidation strategy, supported by consolidation-friendly policies. Positive signals on both fronts would confirm the company's longer-term growth trajectory beyond cost control, providing upside to FY26 consensus and fueling a re-rating of the stock.

Analysts' compensation is determined by Citi Research management and Citigroup's senior management and is based upon activities and services intended to benefit the investor clients of Citigroup Global Markets Inc. and its affiliates (the "Firm"). Compensation is not linked to specific transactions or recommendations. Like all Firm employees, analysts receive compensation that is impacted by overall Firm profitability which includes investment banking, sales and trading, and principal trading revenues. One factor in equity research analyst compensation is arranging corporate access events between institutional clients and the management teams of covered companies. Typically, company management is more likely to participate when the analyst has a positive view of the company.

For financial instruments recommended in the Product in which the Firm is not a market maker, the Firm is a liquidity provider in such financial instruments (and any underlying instruments) and may act as principal in connection with transactions in such instruments. The Firm is a regular issuer of traded financial instruments linked to securities that may have been recommended in the Product. The Firm regularly trades in the securities of the issuer(s) discussed in the Product. The Firm may engage in securities transactions in a manner inconsistent with the Product and, with respect to securities covered by the Product, will buy or sell from customers on a principal basis.

The Firm is a market maker in the publicly traded equity securities of 3SBio, CSPC Pharma, Innovent, Jiangsu Hengrui Pharmaceuticals, Ping AN Healthcare and Technology, Sino Biopharmaceutical, Sinopharm, WuXi AppTec, Wuxi Biologics.

Unless stated otherwise neither the Research Analyst nor any member of their team has viewed the material operations of the Companies for which an investment view has been provided within the past 12 months.

Citi Research Equity Ratings Distribution

Data current as of 01 Jul 2026	12 Month Rating			Catalyst Watch		
	Buy	Hold	Sell	Buy	Hold	Sell
Citi Research Global Fundamental Coverage (Neutral=Hold)	61%	32%	7%	36%	48%	16%
% of companies in each rating category that are investment banking clients	38%	42%	27%	42%	37%	36%

Guide to Citi Research Fundamental Research Investment Ratings:

Citi Research stock recommendations include an investment rating and an optional risk rating to highlight high risk stocks.

Risk rating takes into account both price volatility and fundamental criteria. Stocks will either have no risk rating or a High risk rating assigned.

Investment Ratings: Citi Research investment ratings are Buy, Neutral and Sell. Our ratings are a function of analyst expectations of expected total return ("ETR") and risk. ETR is the sum of the forecast price appreciation (or depreciation) plus the dividend yield for a stock within the next 12 months. The target price is based on a 12 month time horizon. The Investment rating definitions are: Buy (1) ETR of 15% or more or 25% or more for High risk stocks; and Sell (3) for negative ETR. Any covered stock not assigned a Buy or a Sell is a Neutral (2). For stocks rated Neutral (2), if an analyst believes that there are insufficient valuation drivers and/or investment catalysts to derive a positive or negative investment view, they may elect with the approval of Citi Research management not to assign a target price and, thus, not derive an ETR. Citi Research may suspend its rating and target price and assign "Rating Suspended" status for regulatory and/or internal policy reasons. Citi Research may also suspend its rating and target price and assign "Under Review" status for other exceptional circumstances (e.g. lack of information critical to the analyst's thesis, trading suspension) affecting the company and/or trading in the company's securities. In both such situations, the rating and target price will show as "—" and "—" respectively in the rating history price chart. Prior to 11 April 2022 Citi Research assigned "Under Review" status to both situations and prior to 11 Nov 2020 only in exceptional circumstances. As soon as practically possible, the analyst will publish a note re-establishing a rating and investment thesis. Investment ratings are determined by the ranges described above at the time of initiation of coverage, a change in investment and/or risk rating, or a change in target price (subject to limited management discretion). At times, the expected total returns may fall outside of these ranges because of market price movements and/or other short-term volatility

or trading patterns. Such interim deviations will be permitted but will become subject to review by Research Management. Your decision to buy or sell a security should be based upon your personal investment objectives and should be made only after evaluating the stock's expected performance and risk.

Catalyst Watch/Short Term Views ("STV") Ratings Disclosure:

Catalyst Watch and STV Upside/Downside calls: Citi Research may also include a Catalyst Watch or STV Upside or Downside call to indicate the analyst expects the share price to rise (fall) in absolute terms over a specified period of 30 or 90 days in reaction to one or more specific near-term catalysts or events impacting the company or the market. A Catalyst Watch will be published when Analyst confidence is high that an impact to share price will occur; it will be a STV when confidence level is moderate. A Catalyst Watch or STV Upside/Downside call will automatically expire at the end of the specified 30/90 day period. The Catalyst Watch will also be automatically removed if share price performance (calculated at market close) exceeds 15% against the direction of the call (unless over-ridden by the analyst). The analyst may also remove a Catalyst Watch or STV call prior to the end of the specified period in a published research note. A Catalyst Watch/STV Upside or Downside call may be different from and does not affect a stock's fundamental equity rating, which reflects a longer-term total absolute return expectation. For purposes of FINRA ratings-distribution-disclosure rules, a Catalyst Watch/STV Upside call corresponds to a buy recommendation and a Catalyst Watch/STV Downside call corresponds to a sell recommendation. Any stock not assigned to a Catalyst Watch Upside, Catalyst Watch Downside, STV Upside, or STV Downside call is considered Catalyst Watch/STV No View. For purposes of FINRA ratings distribution-disclosure rules, we correspond Catalyst Watch/STV No View to Hold in our ratings distribution table for our Catalyst Watch/STV Upside/Downside rating system. However, we reiterate that we do not consider No View to be a recommendation. For all Catalyst Watch/STV Upside/Downside calls, risk exists that the catalyst(s) and associated share-price movement will not materialize as expected.

OTHER DISCLOSURES

Any price(s) of instruments mentioned in recommendations are as of the prior day's market close on the primary market for the instrument, unless otherwise stated.

The completion and first dissemination of any recommendations made within this research report are as of the Eastern date-time displayed at the top of the Product. If the Product references views of other analysts then please refer to the price chart or rating history table for the date/time of completion and first dissemination with respect to that view.

Regulations in various jurisdictions require that where a recommendation differs from any of the author's previous recommendations concerning the same financial instrument or issuer that has been published during the preceding 12-month period that the change(s) and the date of that previous recommendation are indicated. For fundamental coverage please refer to the price chart or rating change history within this disclosure appendix or the issuer disclosure summary at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

Citi Research has implemented policies for identifying, considering and managing potential conflicts of interest arising as a result of publication or distribution of investment research. A description of these policies can be found at https://www.citivelocity.com/cvr/eppublic/citi_research_disclosures.

The proportion of all Citi Research research recommendations that were the equivalent to "Buy", "Hold", "Sell" at the end of each quarter over the prior 12 months (with the % of these that had received investment firm services from Citi in the prior 12 months shown in brackets) is as follows; Q1 2026 Buy 33%(63%), Hold 44% (52%), Sell 23% (46%), RV 0.5% (89%); Q4 2025 Buy 33% (63%), Hold 44% (50%), Sell 23% (46%), RV 0.4% (91%); Q3 2025 Buy 33% (61%), Hold 44% (52%), Sell 23% (50%), RV 0.4% (80%); Q2 2025 Buy 33%(63%), Hold 44% (51%), Sell 23% (49%), RV 0.4% (86%). For the purposes of disclosing recommendations other than for equity (whose definitions can be found in the corresponding disclosure sections), "Buy" means a positive directional trade idea; "Sell" means a negative directional trade idea; and "Relative Value" means any trade idea which does not have a clear direction to the investment strategy.

European regulations require a 5 year price history when past performance of a security is referenced. CitiVelocity's Charting Tool (https://www.citivelocity.com/cv2/#go/CHARTING_3_Equities) provides the facility to create customisable price charts including a five year option. This tool can be found in the Data & Analytics section under any of the asset class menus in CitiVelocity (<https://www.citivelocity.com/>). For further information contact CitiVelocity support (https://www.citivelocity.com/cv2/go/CLIENT_SUPPORT). The source for all referenced prices, unless otherwise stated, is DataCentral, which sources price information from LSEG Data & Analytics. Past performance is not a guarantee or reliable indicator of future results. Forecasts are not a guarantee or reliable indicator of future performance.

Investors should always consider the investment objectives, risks, and charges and expenses of an ETF carefully before investing. The applicable prospectus and key investor information document (as applicable) for an ETF should contain this and other information about such ETF. It is important to read carefully any such prospectus before investing. Clients may obtain prospectuses and key investor information documents for ETFs from the applicable distributor or authorized participant, the exchange upon which an ETF is listed and/or from the applicable website of the applicable ETF issuer. The value of the

investments and any accruing income may fall or rise. Any past performance, prediction or forecast is not indicative of future or likely performance. Any information on ETFs contained herein is provided strictly for illustrative purposes and should not be deemed an offer to sell or a solicitation of an offer to purchase units of any ETF either explicitly or implicitly. The opinions expressed are those of the authors and do not necessarily reflect the views of ETF issuers, any of their agents or their affiliates. Citigroup Global Markets India Private Limited and/or its affiliates may have, from time to time, actual or beneficial ownership of 1% or more in the debt securities of the subject issuer.

Please be advised that pursuant to Executive Order 13959 as amended (the "Order"), U.S. persons are prohibited from investing in securities of any company determined by the United States Government to be the subject of the Order. This research is not intended to be used or relied upon in any way that could result in a violation of the Order. Investors are encouraged to rely upon their own legal counsel for advice on compliance with the Order and other economic sanctions programs administered and enforced by the Office of Foreign Assets Control of the U.S. Treasury Department.

This communication is directed at persons who are "Eligible Clients" as such term is defined in the Israeli Regulation of Investment Advice, Investment Marketing and Investment Portfolio Management law, 1995 (the "Advisory Law"). Within Israel, this communication is not intended for retail clients and Citi will not make such products or transactions available to retail clients or to non-Eligible Clients. The presenter is not licensed as investment advisor or investment marketer by the Israeli Securities Authority ("ISA") and this communication does not constitute investment or marketing advice. The information contained herein may relate to matters that are not regulated by the ISA. Any securities which are the subject of this communication may not be offered or sold to any Israeli person except pursuant to a security offering exemption according to the Israeli Securities Law, 1968 and the public offering rules provided thereunder.

Citi Research broadly and simultaneously disseminates its research content to the Firm's institutional and retail clients via the Firm's proprietary electronic distribution platforms (e.g., Citi Velocity and various Global Wealth platforms). As a convenience, certain, but not all, research content may be distributed through third party aggregators. Clients may receive published research reports by email, on a discretionary basis, and only after such research content has been broadly disseminated. Certain research is made available only to institutional investors to satisfy regulatory requirements. The level and types of services provided by Citi Research analysts to clients may vary depending on various factors such as the client's individual preferences as to the frequency and manner of receiving communications from analysts, the client's risk profile and investment focus and perspective (e.g. market-wide, sector specific, long term, short-term etc.), the size and scope of the overall client relationship with the Firm and legal and regulatory constraints.

Pursuant to Comissão de Valores Mobiliários Resolução 20 and ASIC Regulatory Guide 264, Citi is required to disclose whether a Citi related company or business has a commercial relationship with the subject company. Considering that Citi operates multiple businesses in more than 100 countries around the world, it is likely that Citi has a commercial relationship with the subject company.

Securities recommended, offered, or sold by the Firm: (i) are not insured by the Federal Deposit Insurance Corporation; (ii) are not deposits or other obligations of any insured depository institution (including Citibank); and (iii) are subject to investment risks, including the possible loss of the principal amount invested. The Product is for informational purposes only and is not intended as an offer or solicitation for the purchase or sale of a security. Any decision to purchase securities mentioned in the Product must take into account existing public information on such security or any registered prospectus. Although information has been obtained from and is based upon sources that the Firm believes to be reliable, we do not guarantee its accuracy and it may be incomplete and condensed. Note, however, that the Firm has taken all reasonable steps to determine the accuracy and completeness of the disclosures made in the Important Disclosures section of the Product. The Firm's research department has received assistance from the subject company(ies) referred to in this Product including, but not limited to, discussions with management of the subject company(ies). Firm policy prohibits research analysts from sending draft research to subject companies. However, it should be presumed that the author of the Product has had discussions with the subject company to ensure factual accuracy prior to publication. Statements and views concerning ESG (environmental, social, governance) factors are typically based upon public statements made by the affected company or other public news, which the author may not have independently verified. ESG factors are one consideration that investors may choose to examine when making investment decisions. All opinions, projections and estimates constitute the judgment of the author as of the date of the Product and these, plus any other information contained in the Product, are subject to change without notice. Prices and availability of financial instruments also are subject to change without notice. Notwithstanding other departments within the Firm advising the companies discussed in this Product, information obtained in such role is not used in the preparation of the Product. Although Citi Research does not set a predetermined frequency for publication, if the Product is a fundamental equity or credit research report, it is the intention of Citi Research to provide research coverage of the covered issuers, including in response to news affecting the issuer. For non-fundamental research reports, Citi Research may not provide regular updates to the views, recommendations and facts included in the reports. Notwithstanding that Citi Research maintains coverage on, makes recommendations concerning or discusses issuers, Citi Research may be periodically restricted from referencing certain issuers due to legal or policy reasons. Where a component of a published trade idea is subject to a restriction, the trade idea will be removed from any list of open trade ideas included in the Product. Upon the lifting of the restriction, the trade idea will either be re-instated in the open trade ideas list if the analyst continues to support it or it will be officially closed. Citi Research may provide different research products and services to different classes of customers (for example, based upon long-term or short-term investment horizons) that may lead to differing conclusions or recommendations that could impact the price of a security contrary to the recommendations in the alternative research product, provided that each is consistent with the rating system for each respective product.

Investing in non-U.S. securities, including ADRs, may entail certain risks. The securities of non-U.S. issuers may not be registered with, nor be subject to the reporting requirements of the U.S. Securities and Exchange Commission. There may be limited information available on foreign securities. Foreign companies are generally not subject to uniform audit and reporting standards, practices and requirements comparable to those in the U.S. Securities of some foreign companies may be less liquid and their prices more volatile than securities of comparable U.S. companies. In addition, exchange rate movements may have an adverse effect on the value of an investment in a foreign stock and its corresponding dividend payment for U.S. investors. Net dividends to ADR investors are estimated, using withholding tax rates conventions, deemed accurate, but investors are urged to consult their tax advisor for exact dividend computations. Investors who have received the Product from the Firm may be prohibited in certain states or other jurisdictions from purchasing securities mentioned in the Product from the Firm. Subject to the nature and contents of the Product, the investments described therein are subject to fluctuations in price and/or value and investors may get back less than originally invested. Certain high-volatility investments can be subject to sudden and large falls in value that could equal or exceed the amount invested. The yield and average life of CMOs (collateralized mortgage obligations) referenced in this Product will fluctuate depending on the actual rate at which mortgage holders prepay the mortgages underlying the CMO and changes in current interest rates. Any government agency backing of the CMO applies only to the face value of the CMO and not to any premium paid. Certain investments contained in the Product may have tax implications for private customers whereby levels and basis of taxation may be subject to change. If in doubt, investors should seek advice from a tax adviser. The Product does not purport to identify the nature of the specific market or other risks associated with a particular transaction. Advice in the Product is general and should not be construed as personal advice given it has been prepared without taking account of the objectives, financial situation or needs of any particular investor. Accordingly, investors should, before acting on the advice, consider the appropriateness of the advice, having regard to their objectives, financial situation and needs. Prior to acquiring any financial product, it is the client's responsibility to obtain the relevant offer document for the product and consider it before making a decision as to whether to purchase the product.

Card Insights. Where this report references Card Insights data, Card Insights consists of selected data from a subset of Citi's proprietary credit card transactions. Such data has undergone rigorous security protocols to keep all customer information confidential and secure; the data is highly aggregated and anonymized so that all unique customer identifiable information is removed from the data prior to receipt by the report's author or distribution to external parties. This data should be considered in the context of other economic indicators and publicly available information. Further, the selected data represents only a subset of Citi's proprietary credit card transactions due to the selection methodology or other limitations and should not be considered as indicative or predictive of the past or future financial performance of Citi or its credit card business.
