2020.HK 12m Price Target: **HK\$108.00** Price: **HK\$74.15** Upside: **45.7%**

Anta Sports reported healthy 2Q26 sell-through results, tracking largely in-line with market expectation and our conversation with mgmt, though we believe **Fila's 1H26 MSD growth is slightly below market's expectation of HSD while Kolon's strong growth should provide upside to overall other brands' growth**. Although **Anta brand/Fila/Other brands** retail sales decelerated to **+LSD%/+LSD%/+25-30%** in 2Q26 (or +MSD%/+MSD%, but close to HSD%/+35-40% yoy in 1H26) mainly due to seasonality and the industry-wise headwinds we observed, including later CNY, unfavorable weather conditions and softer macro demand, etc. Yet, Anta continued to outperform peers, with Xtep/ Li Ning adult+kids /Pou Sheng/ Topsports reporting -MSD%/flat/ -3%/ -low-teens% yoy decline in 2Q26. **Mgmt remained confident to achieve and maintain the full year guidance** (>+LSD%/+MSD%/>20% retail sales growth for Anta brand/Fila/other brands) considering demand uncertainty and weather volatility, despite an easier comparison base in 2H26 and a favorable Mid-Autumn Festival calendar shift in 3Q26.

More specifically, **1) Anta brand** growth in 2Q26 was led by online channel of low-DD% yoy growth following product and channel strategy optimization initiated from 3Q25, though online discount was deepened by c.2pp due to the longer 618 shopping festival. Offline retail sales declined with stable yoy discount. On the recent mgmt change decision, the company emphasized that recent management changes will not affect the brand's long-term strategy or operating direction. **2) Fila** growth was also led by online channel of low-DD% yoy growth with stable discount yoy, though dragged by offline channel decline with c.1pp deepened discount. **3) Descente** recorded +20% yoy growth in 2Q26 (or +25-30% in 1H26) with stable and disciplined discount, as well as healthy inventory level. Management attributed the strong performance to resilient spending by high-income consumers and continued product appeal. To broaden its customer base, the brand is expanding into footwear,

women's categories and sub-brands, etc. In addition, expanding product portfolios will support higher store productivity, while aggressive store expansion is not the first priority. 4) For other brands, **Kolon** growth in 2Q26 remained solid at +>40% yoy with healthy discount and inventory level; **MAIA** saw offline growth outpace online growth for the first time, driven by successful new product launches; **Jack Wolfskin** brand's repositioning is faster than expected in China and on track in Europe. The brand plans to open several new stores with refreshed product assortments in cities in Northern China beginning in October 2026. Nevertheless, mgmt expects the brand to remain loss-making in 2026, and aims to be profitable in 2027 for China, followed by profitability for the global business in 2028; Management also noted that **Puma** acquisition process is on track.

All in all, we revised up Anta group's revenue upward by <1.5% and earnings upward by <1% in 2026-28E, reflecting solid growth at other brands including Descente and Kolon and disciplined OPEX control, though partly offset by slightly lower GPM given the mildly expanded discounts. Our 12-month target price and valuation methodology stay unchanged at HK\$108. Current valuation of c.13x 2026E P/E remain undemanding considering the group's proven ability to operate multi-brands and navigate cycles. Reiterate Buy on Anta group.

Key operating updates & takeaways from the conference call

Anta core brand:

- 2Q retail sales: Anta brand delivered +LSD% yoy growth (moderated vs. +HSD% in 1Q26), the sequential moderation was due to the timing shift of CNY, longer 618 promotional period and unfavorable weather. That said, mgmt highlighted healthy online performance during 618 promotion; By channel, adult offline/kids offline declined and online grew by +LDD% yoy in 2Q26 (vs+MSD%/+HSD%/+mid-teens% in 1Q26).
- Discounts/Inventory: Anta offline discount was stable yoy yet online discount deepened by 2pp due to longer 618 promotional period v.s. last year, inventory month was stable yoy at 5X.
- 2026 Outlook: mgmt highlighted Anta brands 1H26 +MSD% yoy growth above its full year guidance of full-year guidance of >+LSD%, and mgmt reiterated the FY26 guidance. Looking into 2H26, management expects the relatively low comparison base in 3Q25 and the calendar shift of the Mid-Autumn Festival to provide some support, yet the competitive and promotional environment and unfavorable weather, could remain near-term headwinds. On products, Anta introduced its self-developed structural cushioning platform and launched the new Anta FOLD running shoes (ASP Rmb599) and management expects the product to support momentum in the running category during 2H26.
- On management change, Anta recently announced the CEO change and mgmt noted that it is a standard leadership appointment and emphasized that it would not affect the continuity or stability of Anta brand's operations. Mgmt reiterated the brand's FY26 guidance and noted that its long-term strategic direction remains unchanged, while expressing confidence in Anta's future development.

Fila

- Retail sales: Fila total retail sales grew by +LSD% (moderated v.s. +low-teens% yoy in 1Q26). Fila Classic and Fila Kids offline declined yoy and Fila Fusion MSD% yoy thanks to stronger demand for outdoor and cold-weather products amid cooler weather in early 2Q. Online sales increased by +LDD%, driven by solid performance during the 618 shopping festival. Despite the sequential moderation in 2Q, management highlighted 1H26 FILA's retail sales grew by +MSD%(close to the +HSD% range), on track of its full-year +MSD% growth guidance.
- Discounts/Inventory: Fila Classic's discount deepened 1pp for offline and flat for online; inventory level by 2Q26 improved by 0.3 month yoy at <5x.
- 2026 Outlook : mgmt reiterated the full-year of +MSD% retail sales guidance. On product, Daddy Shoes and polo products performed well during 618, while FILA Golf recorded +DD% growth in 2Q26 and tennis category is expected to provide further growth in 2H26.

Descente/Kolon

- Descente achieved a strong growth of +20%+ yoy, and mgmt highlighted strong performance from core products, including the D-FLOW running shoes and women's products in 2Q26. Looking ahead, mgmt expect continued momentum driven by offline channel upgrade and improvements in SSSG. By category, skiing, golf, triathlon and training are expected to maintain solid growth while running shoes and women's products to contribute incremental upside. On customer, the brand will continue to strengthen its membership management and offline community engagement to enhance customer retention and sales.
- Kolon achieved +40+% yoy growth and healthy discount (<10% off of all channels) and inventory level (less than 4 months) in 2Q26. Kolon continued to reinforce its professional outdoor positioning with launch of the flagship MOVE ALPHA 3.0 VENTI trekking shoe and further expanded into products designed for professional trekking.

For Jack Wolfskin, mgmt noted that the channel restructuring progress for China is ahead of expectations, while Europe in-line. The brand plans to open flagship stores in China and launch new products tailored to China market from autumn. Mgmt expects Jack Wolfskin to remain loss-making in 2026, and aims to achieve profitable in 2027 for China, followed by profitability for the global business in 2028. Of note, though Jack Wolfskin sell-through is not included in current disclosure, its contribution will be included in reported 1H26 revenue.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
