

GLOBAL SHIPBUILDING

Global Shipyard Logbook July: New orders for major ship types improved but declined for gas carriers; China's order market share reaches 85%

Asia Transportation

Identifying imbalance and inflections across passenger and cargo transportation in Asia

Explore >

Global new ship order volume showed some stabilization in Jun-26 (-9% MoM) and was up +1% YoY, while new order value was -39% MoM/-9% YoY. **Around 70% of the MoM order value decline was attributable to lower offshore contracting, while the remainder was due to 60-70% MoM contraction of LPG and LNG carriers order volume**, which we attribute to a slower new orders negotiation as the war increased uncertainty. **Demand for other major ship types improved**, with the aggregate of **volume/ value** for containers, tankers and bulkers **+22%/+14% MoM**, and Chinese shipyards have dominant market share in these three ship types. As a result, together with faster capacity expansion vs. peers (see our [trip takeaway](#)), **Chinese shipyards strengthened their market share to 85%** in Jun-26.

Among our covered shipbuilders, **Yangzijiang and Hengli's order momentum both improved in Jun-26**. Yangzijiang Shipbuilding won four 1.9k-TEU containerships and 2 LPG orders during Jun-26, new-order win momentum improved vs. Apr-May, but still -24% below the 1Q26 avg; while Hengli's new order-wins volume saw more acceleration at +102% vs. the avg in Apr-May, as it won 16 x 6k containership in Jun-26, which accounts for half of its new orders volume. That said, the data hasn't incorporated up-to twenty 20k-TEU dual-fuel containerships placed by MSC to Hengli, which we estimate could be valued at US\$4bn (see [Jul-26](#) report) and account for more than 10% of Hengli's orderbook, and will be delivered starting from 1H29. We believe this implies **further improvement in Hengli's product mix** (see [Jul-26](#) report) **and also more intense competition for Yangzijiang. We reiterate our view that Hengli will continue to win new orders, benefiting from shorter order cover years.** We also remain constructive on **Namura (7014.T; Buy)** and **Mitsui E&S (7003.T; Buy)** which stand to benefit from resilient underlying demand for replacement of aging fleets, the structural shift to environmentally friendly vessels, and the revitalization of Japan's shipbuilding industry in the long run. Moreover, with **Tokyo Keiki (7721.T; Buy)** boasting a 60% global market share for autopilots and gyrocompasses in ships, we believe that this company has the potential to achieve substantial earnings growth as we expect both after-service

Analysts employed by non-US affiliates are not registered/qualified as research analysts with FINRA in the U.S.

demand and newbuild demand to increase over the next few years, in addition to tailwinds from defense.

By analyzing key data points, we summarize four main findings for Jun:

- **Value of global new ship contracts (excl. naval ships) slowed down MoM attributable to lower offshore contracting and LPG/LNGC orders** - New contract volume/value were down -9%/-39% MoM, and was +1%/-9% YoY to 5.3mn CGTs/US\$15.3bn. As a result, the end-Jun orderbook slightly increased by 0.3% MoM, which led to a MoM stable orderbook cover year of 3.7x. Clarksons newbuilding price trended higher MoM (+0.1%) to 185, driven by better pricing across all major ship types especially bulkers and tankers, up +1.3%/+0.4% MoM respectively.
- **Containership order volumes declined by 13% MoM, of which all new orders were small-to-medium size below 7k TEU; Tanker order momentum improved +5% MoM and nearly doubled (+96%) YoY; and bulker orders were +166%/ flat MoM/YoY** - Among the different ship types ([Exhibit 6](#)), containership volumes were at 1.2mn CGTs (-13%/-35% MoM/YoY), where all were small-to-mid size vessels (below 7k TEU) attributable to replacement demand. Tanker order volumes were +5%/+96% MoM/YoY. During the month, there were 21 new orders for VLCCs, of which 12/5/2 were placed to CSSC/Hanwha Ocean/Hengli (see [Feb-26](#) report) and scheduled to be delivered starting from 2H28 to 2030. Besides the 2 VLCCs, Hengli also won orders for 2 product tankers and 2 Suezmax tankers in Jun-26, taking c.13% of global tanker orders market share.
- **China's overall market share improved to 85%, the highest since Aug-24; while Korea's market share declined to 9% in Jun-26 (vs. 40% in May-26). Excluding LNGC, China/Korea Jun-26 market shares were at 87%/7% respectively** - In terms of CGTs ([Exhibit 3](#)), Chinese shipyards' Jun-26 market share incl./excl. LNGCs was 85%/87% (vs.52%/65% in May-26). China continued to dominate tanker and bulker new order volumes with a global share at 78%/89%. Korean shipyards' May-26 market share incl./excl. LNGCs was 9%/7% (vs.40%/25% in May-26), due to lower market share in LNGC/LPG/containerships ([Exhibit 3](#)).
- **Yangzijiang's orderbook cover years was at 3.4x, modestly below the global avg at 3.7x; while Hengli cover years was at 2.8x (after factoring in Phase III capacity), which could decline further if they expand capacity via phase IV** - Yangzijiang's orderbook cover years was at 3.4x years in Jun-26, stable vs. May-26. We expect additional capacity at Hongyuan Shipyard by end-26 will support further order wins for YZJ. Hengli cover years was flattish at 3.2x years and was at 2.8x years considering an earlier completion of Phase III capacity (see [Apr-26](#) report), which remains well below the global average. We expect Hengli cover years could be further shortened to below 2x, if the company finalizes Phase IV capacity addition, which is estimated to add another up to 100% capacity to the existing three phases (see [Jul-26](#)). Hence, we expect it will continue to win orders, benefiting from shorter cover years.

Exhibit 1: Global Shipbuilding key monthly data overview

Global new contract value was -9% YoY was due to lower volume contribution from containerships and non-major shiptypes, partially offset by better volume from tankers while newbuild price was +0.1% MoM; Yangzijiang and Hengli were c.1%/15% of the global new order volumes

GS Global Shipyard Logbook Jul

New contract order volume/value: Jun-26 new contract order volume was -9%/+1% MoM/YoY. The MoM decline was mainly due to lower new orders of LPG and LNGC, partially offset by the increase in tankers and bulkers new orders. Containership orders were -13%/-35% MoM/YoY to 1.2mn CGTs, made up by c.50 small-to-medium size vessels below 7k TEU, of which 4/12 were won by Yangzijiang/Hengli. Tanker orders were +5%/+96% MoM/YoY to 1.5mn CGTs, where Hengli took up 13% of the share (by CGT). During Jun-26, there were 21 VLCC new orders, scheduled to be delivered from 2H28 to 2030, of which 12/5/2 were placed to CSSC/Hanwha Ocean/Hengli. Bulker orders were +166%/flat MoM/YoY to 1.3mn CGTs, of which 22%/14%/12% were won by Jiangmen Nanyang/Hengli/Jiangsu New Hantong. LNGC orders were down to 0.5mn CGTs (-62%/+23% MoM/YoY), of which 69%/31% were taken by China/Korea shipbuilders. **New order value** in Jun-26 was US\$15.5bn, -39%/-9% MoM/YoY. **By region**, China new contract order volumes were +48%/+37% MoM/YoY to 4.5mn CGTs; while Korea order volumes were -79%/-56% MoM/YoY to 0.5mn CGTs, due to less LNGC and LPG orders. Japan order volumes were -56%/-87% MoM/YoY at 0.1mn CGTs. Hence, China/Korea market share in new contract volume was 85%/9% in Jun-26 and Japan market share was at 2%. Excluding LNGC orders, China/Korea market shares were at 87%/7%.

Orderbook and cover years: Global orderbook was flat MoM to 207mn CGTs in Jun-26, among which 30%/20%/16% were containerships/tankers/bulkers ([Exhibit 9](#)). China/Korea/Japan orderbook market share was stable at 66%/18%/6% ([Exhibit 10](#)). Global orderbook cover years was at 3.7x years, with China/Korea/Japan at 4.1x/3.2x/2.2x.

Newbuild price: Based on an unchanged orderbook, Clarksons newbuild price index was up +0.1% MoM, the third consecutive month of improvement, and was -2.4% below the Sep-24 peak and +48% vs. end-2020 ([Exhibit 11](#)). By different ship types, containership newbuild price was +0.2 % MoM, and -0.2% YoY; tanker newbuild price improved +0.4%/+4.6% MoM/YoY and bulkers newbuild price improved +1.3%/+3.8% MoM/YoY ([Exhibit 8](#)).

Shipbuilding cost trends: Compared with last month, steel plate price in China declined by -1% MoM, while stable in Japan and Korea. The discount of Chinese steel plates to Japanese/Korean steel plates was -13%/-18% ([Exhibit 12](#)). Japan PPI for Internal Combustion Diesel Engines for Marine Vessels was flat MoM and was up +8% YoY ([Exhibit 13](#)).

Dynamic RoI by ship type: As of Jul 3, 2026, containerships Dynamic RoI (based on 6-12m TCE) maintained at 31%. Crude tankers' profitability increased from 25% prior to the Strait of Hormuz reopening to 36%, based on VLCC TCE (China) which is the avg of TD15, TD22 and Outside Persian Gulf to China TCE. Based on our VLCC TCE base case of US\$150k per day for 2026E full-year avg (see [Jun-26](#) report), VLCC RoI should reach 41%. Bulker dynamic RoI was at 15%(+1pp MoM), while LNGC dynamic RoI was at 12% (-1pp MoM).

GS covered shipyards performance: Per Clarksons, Yangzijiang's orderbook was ~8.4mn CGTs as of Jun-26 end (flat/-3% MoM/YoY). Hengli's orderbook was ~11.8mn CGTs as of Jun-26 end (+5%/+131% MoM/YoY). According to the Japan Ship Exporters' Association, new contracting volume was 662k gross tonnage in May.

Price Target Risks and Methodology – Tokyo Keiki

Our 12-month target price is ¥8,800. The target price is derived applying a target P/E multiple of 23X on our FY3/31E EPS estimate and discounting the value back to FY3/27 using a cost of equity of 10%. Key risks include a deterioration in defense demand, a decline in shipping demand, and a decline in prices caused by competition and other relevant factors.

Price Target Risks and Methodology – Mitsui E&S Co.

Our 12-month target price is ¥7,000. Using a Sum of the Parts (SOTP) model, we apply target P/E multiples of 10X-19X to our net profit estimates for each segment and the respective reference years we use for them, and discount the sum back to FY3/27 using a cost of equity of 9.8%. We apply a P/E of 19X on FY3/31E for marine propulsion systems, 14X on FY3/30E for logistics systems, 14X on FY3/28E for new business development, and 10X on FY3/28E for peripheral services. Key risks include a sharp increase in input costs, deterioration in container transport demand, production problems, and a decline in prices.

Price Target Risks and Methodology – Namura Shipbuilding Co.

Our 12-month target price of ¥5,600 is based on a target P/B of 2.6X applied to our end-FY3/30E BPS estimate, discounted back to FY3/27E using a cost of equity of 9.8%. Key risks include a sudden increase in production capacity in the shipbuilding industry, higher steel prices, production problems, and a decline in vessel prices.

Price Target Risks and Methodology – Yangzijiang Shipbuilding

We are Buy rated on Yangzijiang and derive our 12-month target price of SGD 4.70 based on P/B vs. ROE valuation. We apply a target P/B multiple of 2.5x to our end-2026E BVPS. We derive the target P/B based on the cycle-average ROE of 24% and Cost of Equity of 10.2% with long-term growth of 1%.

Key risks: 1) Higher-than-expected steel prices; 2) More stringent regulations from USTR targeting Chinese-built vessels; 3) Larger-than-expected ASP decline; 4) Faster-than-expected capacity expansion from other shipyards.

Price Target Risks and Methodology – Guangdong Songfa Ceramics Co

Our 12-m target price of Rmb200/share is based on a 2028E P/E of 12x, based on the average of Chinese and Korean shipyards. Risks: Delays in ship delivery or new capacity release; Higher-than-expected steel prices; Less-than-expected new order wins; Lower-than-expected ASP; Stronger-than-expected RMB appreciation vs. USD; Faster-than-expected capacity expansion from other shipyards.

Disclosure Appendix

Reg AC

We, Herbert Lu and Wing Huang, hereby certify that all of the views expressed in this report accurately reflect our personal views about the subject company or companies and its or their securities. We also certify that no part of our compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Unless otherwise stated, the individuals listed on the cover page of this report are analysts in Goldman Sachs' Global Investment Research division.

Contributing Authors: Herbert Lu Goldman Sachs (Asia) L.L.C., Simon Cheung, CFA Goldman Sachs (Asia) L.L.C., Norihiro Miyazaki Goldman Sachs Japan Co., Ltd., Wing Huang Goldman Sachs (Asia) L.L.C., Ryohei Kurita Goldman Sachs Japan Co., Ltd..

Unless otherwise stated, the individuals listed in the Contributing Authors disclosure of this report are analysts in Goldman Sachs' Global Investment Research division.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DAFC) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

Clarkson Research Services Limited (CRSL)

Clarkson Research Services Limited (CRSL) have not reviewed the context of any of the statistics or information contained in the commentaries and all statistics and information were obtained by Goldman Sachs & Co. from standard CRSL published sources. Furthermore, CRSL have not carried out any form of due diligence exercise on the information, as would be the case with finance raising documentation such as Initial Public Offerings (IPOs) or Bond Placements. Therefore reliance on the statistics and information contained within the commentaries will be for the risk of the party relying on the information and CRSL does not accept any liability whatsoever for relying on the statistics or information. Insofar as the statistical and graphical market information comes from CRSL, CRSL points out that such information is drawn from the CRSL database and other sources. CRSL has advised that: (i) some information in CRSL's database is derived from estimates or subjective judgments; and (ii) the information in the database of other maritime data collection agencies may differ from the information in CRSL's database; and (iii) whilst CRSL has taken reasonable care in the compilation of that statistical and graphical information and believes it to be accurate and correct, data compilation is subject to limited audit and validation procedures and may accordingly contain errors; and (iv) CRSL, its agents, officers and employees do not accept liability for any loss suffered in consequence of reliance on such information or in any other manner; and (v) the provision of such information does not obviate any need to make appropriate further enquiries; and (vi) the provision of such information is not an endorsement of any commercial policies and/or any conclusions by CRSL; and (vii) shipping is a variable and cyclical business and any forecasting concerning it cannot be very accurate.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; for equity securities, market making and/or specialist role. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. Statement are available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at <https://www.gs.com/worldwide/brazil/area/gir/index.html>. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) of the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details, a copy of the annual compliance audit report and other relevant information and disclosures can be found at this link: <https://www.goldmansachs.com/worldwide/india/research-analyst>. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: <https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html>. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of conflicts of interest is available at <https://www.gs.com/disclosures/europeanpolicy.html> which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at <https://www.gs.com/research/hedge.html>.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs

Goldman Sachs International (“GSI”), authorised by the Prudential Regulation Authority (“PRA”) and regulated by the Financial Conduct Authority (“FCA”) and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE (“GSBE”) is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst’s judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (<https://www.sipc.org>).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst’s published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst’s fundamental equity rating for such stocks, which rating reflects a stock’s return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, and buy or sell, the securities or derivatives, if any, referred to in this research, unless otherwise prohibited by regulation or Goldman Sachs policy.

The views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at <https://www.theocc.com/about/publications/character-risks.jsp> and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts’ fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst’s fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to <https://research.gs.com>.

Disclosure information is also available at <https://www.gs.com/research/hedge.html> or from Research Compliance, 200 West Street, New York, NY 10282.
