AI & The Entertainment Industry | North America

16th Annual Streaming Survey,
More Is More

Our 16th annual survey of ~3K American consumers suggests a competitive, but growing streaming landscape with AMZN Prime, NFLX & GOOGL's YouTube showing the strongest engagement & stickiness. The ave HH has >5 services and watches ~3 hours of content per day, while Sports are increasingly streamed.

AlphaWise 

Key Takeaways

- Nearly 90% (21 of 24) of entertainment services surveyed saw y/y increases in engagement this year, while the big continue to get bigger (AMZN, NFLX & GOOGL/YT)
- NFLX continues to have the strongest net retention score and is perceived to have the best original content, despite investor concerns over engagement
- DIS's ESPN remains the dominant sports platform, while Disney+ and Hulu saw solid increases in engagement
- Paramount+ and HBO Max scored best on having people's favorite TV shows, which bodes well for the pro forma PSKY+WBD
- META is gaining traction in video with Facebook & Instagram Reels showing the largest y/y increases in engagement across platforms

Top 10 takeaways from our 16th annual Alphawise streaming survey:

1. **More services, more hours...** the average US HH has >5 streaming services including free (5.4 vs 4.9 last year) with 3+ paid subscriptions (up to 3.2 from 3.1 last year, see [Exhibit 25](#)) & watches ~3 hours per day of TV, movies and online videos (with older cohorts skewing higher, see [Exhibit 26](#) - [Exhibit 27](#)).

2. **Distribution at scale is the holy grail...** Amazon Prime Video (+264bps y/y to 66%), Netflix (+352bps y/y to 55%) and YouTube (+476bps to 47%) remain the 3 dominant streaming platforms w/ penetration up y/y (see [Exhibit 1](#)).

3. **DIS & PSKY+HBO solid engagement...** Disney+/Hulu also saw y/y increases (+100-200bps y/y) to 36/38%, while Paramount+ and HBO Max were also up >200bps y/y to 28/27%, which bodes well for the pro forma PSKY+WBD (see [Exhibit 1](#)).

4. **Everything is TV... IG/FB Reels & TikTok see largest y/y increases...** Social platforms saw the largest y/y gains on self-reported usage for entertainment with META's Instagram/Facebook Reels and TikTok up >1,000bps y/y, as these platforms push harder into short-form video with more long-form coming, which is increasingly

Morgan Stanley does and seeks to do business with companies covered in Morgan Stanley Research. As a result, investors should be aware that the firm may have a conflict of interest that could affect the objectivity of Morgan Stanley Research. Investors should consider Morgan Stanley Research as only a single factor in making their investment decision.

For analyst certification and other important disclosures, refer to the Disclosure Section, located at the end of this report.

competing with TV time (see [Exhibit 1](#)). We are also monitoring micro dramas as an emerging category taking more time spent for younger consumers.

5. NFLX, followed by AMZN & HBO for "best" original programing... Netflix is perceived to have the best original programing (+360bps y/y to 31%) after declining the last few years (see [Exhibit 9](#)), while Amazon Prime (+72bps to 17%) and HBO Max (+260bps to 7%) also saw steady gains (see [Exhibit 8](#)); Netflix scores best on *adding content that people like* and having a *broad selection*, while Paramount+ and HBO Max scored best on having people's favorite TV shows (see [Exhibit 10](#)). Users approach Netflix with higher intentionality, typically launching the platform with a specific title in mind (see [Exhibit 12](#)) and with higher attention than other services (see [Exhibit 14](#)), leading to higher "quality" engagement ([Exhibit 15](#)). Meanwhile, Disney+, Peacock and YouTube are often the destination for browsing and/or background entertainment.

6. Ad-tier adoption increasing... The Netflix ad-tier continues to gain traction rising to 26% (from 22% last year) of total respondents, while those without ads held steady at ~30% suggesting that ad-supported offerings are more incremental than cannibalistic (see [Exhibit 28](#)).

7. YT TV most popular vMVPD... Google's YouTube TV is the most preferred vMVPD with strong y/y gains (~30%), followed by Hulu+ Live TV (~20%), while Charter's video push does appear to be bearing fruit (see [Exhibit 22](#) - [Exhibit 23](#)).

8. Sports biggest live draw, increasingly streamed... >60% of people regularly watch Sports live on TV (although this is down y/y to 62% vs 65% last year) and those viewing naturally indexes higher among pay-TV users (>70%), although ~30% of those not using pay-TV report regularly watching live sports content (see [Exhibit 40](#) - [Exhibit 41](#)).

9. DIS/ESPN remains top stop for sports... Disney's ESPN remains the dominant channel/platform for watching sports (31% vs 30% last year) with a modest bump after launching ESPN Unlimited (see [Exhibit 42](#)), meanwhile Amazon is making strides coming in at #2 (22% vs 17% last year) likely helped by the NFL/TNF and Netflix moved up a few notches (12% vs 10% last year).

10. Starz and AMC+ remained at the bottom of the self-reported usage scale and also had the weakest net retention scores, while Apple TV+ engagement was down y/y (see [Exhibit 1](#)), but did score well on quality of engagement (high primary focus & destination marks).

We remain Overweight DIS, NFLX & PSKY, Equal-weight WBD & STRZ, and Underweight AMCX.

Spotlight on Netflix

Netflix sentiment has deteriorated (down -23% YTD, market cap down >\$130bn since WB deal announced on Dec 5) driven by: 1) concerns around engagement growth slowing and a lack of recent break-through new content; 2) less margin expansion than historical (~200bps vs ~300bps); 3) AI positioning uncertainty (on the notion that UGC platforms are better positioned); 4) concerns of elevated churn / unfavorable seasonality; and 5) an M&A discount post WB S&S interest.

Despite investor concerns around engagement and pricing power, Netflix showed the **strongest net retention** score of all video streaming services (+18 = 36% to cancel last – 18% to cancel first), followed by YouTube Premium and Amazon Prime Video.

While Netflix recently increased prices, the **value perception remains strong** with most thinking that the current standard ad-free plan pricing at ~\$20 per month is a 'great buy for the money' while they have room to >\$30 per month before it is perceived to be 'getting expensive' and would give some thought to subscribing.

The HBO Max/Paramount+ Super Service

Key to our OW rating on PSKY is its ability to merge Paramount+ and HBO Max into a unified profitable "super service". Survey results below are encouraging, with only 10% of HBO/Para+ subs very unlikely or somewhat unlike to subscribe to the new super service. Even more, ~40-50% of non-HBO/Para+ subs would reportedly sign on to the super service (Exhibit 17 - Exhibit 18). Per the survey, there's a ~28% overlap in HBO/Para+ subscribers vs MSe ~25-30%.

Streaming Service Adoption

Amazon Prime Video, Netflix, and YouTube (free) continue to lead the pack among video streaming platforms, used by 66%, 55%, and 47% of respondents, respectively. Platform adoption is up YoY overall, with the average respondent subscribing to 5.4 free or paid services (vs. 5.0 last year).

Exhibit 1: Paid streaming service user penetration sees gains YoY

Note: * Netflix, HBO Max, Disney+, Hulu, Paramount+, and Amazon Prime Video reflect each respective service with or without ads.

Exhibit 3: Pay TV subs spend 43% of their watching time watching pay TV, suggesting further opportunity for streaming.

Source: AlphaWise, Morgan Stanley Research

Exhibit 4: Netflix and YouTube get the largest on-platform watching hours/share than other streaming services

Source: AlphaWise, Morgan Stanley Research

Quality of Engagement on Streaming Platforms

As video streaming reaches near-ubiquity, platforms are shifting their focus to maximizing retention, quality, engagement, and monetization of their subscriber bases.

Retention: We asked respondents which of their streaming services they would cancel first, if they had to choose, and which would they cancel last. Consistent with other findings from our survey, Netflix, Amazon Prime Video, and YouTube appear to outcompete the rest of the competition – for all three of these platforms, current users were more likely to indicate them as the service they would cancel last than

as the one they would cancel first, implying that they are not easily replaced. The stickiness of these platforms could be attributed to the quality of their content, breadth of variety, or in the case of Prime Video, being part of a service bundle like Amazon Prime. Perhaps not surprisingly, ad-tier subscriptions are generally more likely than ad-free ones to be the first to cancel.

Exhibit 5: Prime Video, Netflix, and YT Premium are more likely to be canceled last than canceled first

Note: * Netflix, HBO Max, Disney+, Hulu, Paramount+, and Amazon Prime Video reflect each respective service with or without ads.

Source: AlphaWise, Morgan Stanley Research

Exhibit 6: Meanwhile, platform subscribers are quicker to drop Starz, Crunchyroll, and MGM+

Note: * Netflix, HBO Max, Disney+, Hulu, Paramount+, and Amazon Prime Video reflect each respective service with or without ads.

Source: AlphaWise, Morgan Stanley Research

Exhibit 7: Generally, ad-free tiers are stickier than their with-ads counterparts. In our view, likely due to the price sensitivity of subscribers

Source: AlphaWise, Morgan Stanley Research

Quality of Content: In 2020, Netflix was the undisputed leader on the perceived quality of its original programming, but the "streaming wars" in ensuing years saw a rapid influx of competition from other platforms. Our 2026 survey indicates a second consecutive year of growth in the percentage of total respondents who view Netflix as having the "best original programming" among its peers. Compared to other major streaming platforms, Netflix scores highest as a platform that "adds content I like", "has a broad selection of content", and "has my favorite movies".

Exhibit 8: Netflix continues to lead on original programming, increasing further YoY

Source: AlphaWise, Morgan Stanley Research

Exhibit 9: After years of decline, Netflix appears to be regaining ground as the host of the best original programming

Source: AlphaWise, Morgan Stanley Research

Exhibit 10: Netflix leads on many content quality-related metrics, although Paramount+, HBO Max, and Peacock compete closely on TV shows

Source: AlphaWise, Morgan Stanley Research

Platform Market Fit: The quality of engagement with platform content is a complex and multifaceted measure, and can vary across user segments. We asked streaming subscribers about their typical level of focus when watching content on that platform, and about how often they come to the platform with a specific piece of

content in mind. Overall, a large majority of subscribers watch platform content as a primary focus, and come to platforms with a specific content destination, although levels vary across platforms. Interestingly, results suggest that these two measures are positively correlated. Netflix, Apple TV+, and HBO Max users are the most likely to be fully focused when they watch, and they are most likely to have 'destination content'. Meanwhile, Disney+, YouTube, and Peacock are relatively more associated with playing in the background and browsing. Scoring lower on these indices may not indicate lower quality of engagement, but rather fulfilling a distinct market niche.

Across most platforms tested, younger subscribers (18-24) had the lowest focus index scores, suggesting higher rates of multitasking behaviors.

Exhibit 11: When you watch content on each of these platforms, how often is the content your primary focus versus something you mainly have on in the background while doing other activities?

Source: AlphaWise, Morgan Stanley Research

Exhibit 13: How often do you open this platform with a specific show, movie, or video in mind?

Source: AlphaWise, Morgan Stanley Research

Exhibit 12: Netflix, Apple TV+, and HBO Max elicit the most focus for subscribers

Source: AlphaWise, Morgan Stanley Research

Exhibit 14: YouTube, Peacock, and Disney+ have the most 'browsing' users

Source: AlphaWise, Morgan Stanley Research

Exhibit 15: Quality is King: Focus index and destination index are positively correlated

Source: AlphaWise, Morgan Stanley Research

Users who actively chose their subscription are more focused on its content.

Focus index scores differed depending on the reasons why respondents have the subscription(s) they have – Netflix users who subscribed to Netflix to access its specific content (e.g., sports programming, favorite movies, etc.) are more likely to be fully focused when watching, compared to their counterparts who have Netflix because someone else in their household uses it, or because it was part of a wireless bundle. This framework holds true across all platforms tested, with a few exceptions such as Disney+ (which is more often purchased for children in the household).

Exhibit 16: Level of focus is lower among platform users who got their subscription via a bundle or another member of their household

Focus Index (%Primary focus - %Background entertainment)	Reasons for Subscribing to [Streaming Service]										
	Has my favorite TV shows*	Has my favorite movies*	Has a broad selection of movies / TV shows	Good value for the money	Continues to add movies and TV shows that I like*	There are no ads / an acceptable amount of ads	Has live sports programming	Someone else in my household uses it	Included with my home internet or wireless phone plan	Included with a bundle with [another streaming service]**	Subscribed via free annual offer with Apple hardware purchase
Netflix	77%	79%	78%	79%	78%	78%	80%	81%	71%		
Amazon Prime Video	73%	74%	74%	69%	74%	77%	75%	59%			69%
Hulu	70%	70%	70%	69%	70%	75%	63%	45%	65%	58%	67%
Disney+	50%	52%	63%	56%	64%	59%	65%	47%	60%	47%	
Apple TV+	70%	70%	70%	69%	70%	67%	63%	45%		58%	65%

Weighted Average	70%	71%	72%	66%	73%	73%	71%	49%	66%	52%	61%

Note: *For Disney+, states "Has my / my kids' favorite TV shows/movies" and "Continues to add movies and TV shows I / my family likes"; **SVOD bundling pairs include Disney+/Hulu and Apple TV+/Peacock; ***Other types of subscriptions include Prime membership (Amazon Prime Video), Hulu+ with Live TV subscription (Hulu), Apple One subscription (Apple TV+), and Walmart+ subscription (Paramount+).

Source: AlphaWise, Morgan Stanley Research

Netflix Pricing Sensitivity

While Netflix recently increased prices, the value perception remains strong with most thinking that the current standard ad-free plan pricing at ~\$20 per month is a 'great buy for the money' while they have room to >\$30 per month before it is perceived to be 'getting expensive' and would give some thought to subscribing.

Exhibit 17: Netflix's pricing power remains clear as churn remains contained even through price hikes

Note: Credit card data is a panel proxy subject to panel composition, card/payment switching, and billing-timing bias; churn should be interpreted directionally, not as reported NFLX subscriber churn; We define churn as a card that paid for NFLX in each of the prior six months and then had no NFLX payments for two consecutive months.

Source: AlphaWise, Morgan Stanley Research

Exhibit 19: Current Netflix subs and non-subs have very similar views on pricing

Source: AlphaWise, Morgan Stanley Research

Video Entertainment / Streaming Landscape

Traditional pay TV still has an audience, but vMVPD and streaming platforms continue to innovate. Around 40% of respondents in our survey report having a traditional pay-TV subscription, down from 44% last year, but in line with the 3 preceding waves. This suggests the continued existence of a core audience for whom pay TV is not replaceable yet. 25-34-year-olds and higher-income households are more likely to have pay TV than other groups, but this is also true of vMVPDs.

YouTube TV and Hulu+ Live TV are the top vMVPD services, used by 29% and 21% of respondents' households, respectively. Both increased their share of total vMVPD subscriptions YoY, taking share from DirecTV Stream, NOW TV, and fubo TV.

Exhibit 20: Pay-TV subscriptions among total respondents ticked down YoY to 40%, in line with 2022-24 levels

Source: AlphaWise, Morgan Stanley Research

Exhibit 21: Pay-TV and vMVPD subscription rates are highest among 25-34-year-olds, males, and higher-income households

Source: AlphaWise, Morgan Stanley Research

Exhibit 22: About half of respondents have a vMVPD, led by YouTube TV

Source: AlphaWise, Morgan Stanley Research

Exhibit 23: YouTube TV and Hulu+ Live TV tick up in share of total subscriptions YoY

Source: AlphaWise, Morgan Stanley Research

Streaming Service Adoption

Amazon Prime Video, Netflix, and YouTube (free) continue to lead the pack among video streaming platforms, used by 66%, 55%, and 47% of respondents, respectively. Platform adoption is up YoY overall, with the average respondent subscribing to 5.4 free or paid services (vs. 5.0 last year). Looking to paid subscriptions, the average respondent subscribes to 3.2 services, up from 3.1 in 2025.

Exhibit 24: Paid streaming service user penetration sees gains YoY

Note: * Netflix, HBO Max, Disney+, Hulu, Paramount+, and Amazon Prime Video reflect each respective service with or without ads.

Source: AlphaWise, Morgan Stanley Research

Exhibit 25: On average, survey respondents subscribe to 3.2 paid video streaming services, up slightly from 3.1 last year

Note: List of paid streaming services included in average calculation are Netflix, Prime Video, Disney+, Hulu, ESPN+, HBO Max, Paramount+, Apple TV+, YouTube Premium, Peacock, Starz, MGM+/Epix, AMC+. Excludes Crunchyroll.

Source: Company data, Morgan Stanley Research estimate

Share of Time

The average US HH has >5 streaming services including free (5.4 vs 4.9 last year); with 3+ paid subscriptions (up to 3.2 from 3.1 last year) & watches 3 hours per day of TV, movies and online videos – with older cohorts skewing higher.

Exhibit 26: Across all age groups, SVODs have the largest share of watching time

Source: AlphaWise, Morgan Stanley Research

Exhibit 27: Older groups watch more hours of TV/video per week, driven by pay TV

Source: AlphaWise, Morgan Stanley Research

Ad Tier Subscriptions

Since introducing cheaper ad-supported subscription tiers several years ago, adoption has climbed steadily. Netflix, Disney+ and HBO Max have seen some cannibalization as a portion of existing users trade down to these lower-revenue tiers, but as overall adoption rallies over time, these platforms become more effectively monetized. Hulu, Paramount+ and Amazon Prime Video have seen little to no impact on adoption rates of their ad-free tiers, even as ad-supported tier adoption increases YoY.

Exhibit 28: Across all platforms, adoption of ad-tier subscriptions is trending upward...

Source: AlphaWise, Morgan Stanley Research

Exhibit 29: ... and ad-tier subscriptions are making up an increasing share of each platform's user base

Source: AlphaWise, Morgan Stanley Research

Platform Market Fit: The quality of engagement with platform content is a complex and multifaceted measure, and can vary across user segments. We asked streaming subscribers about their typical level of focus when watching content on that platform, and about how often they come to the platform with a specific piece of content in mind. Overall, a large majority of subscribers watch platform content as a primary focus, and come to platforms with a specific content destination, although levels vary across platforms. Interestingly, results suggest that these two measures are positively correlated. Netflix, Apple TV+, and HBO Max users are the most likely to be fully focused when they watch, and they are most likely to have 'destination content'. Meanwhile, Disney+, YouTube, and Peacock are relatively more associated with playing in the background and browsing. Scoring lower on these indices may not indicate lower quality of engagement, but rather fulfilling a distinct market niche.

Across most platforms tested, younger subscribers (18-24) had the lowest focus index scores, suggesting higher rates of multitasking behaviors.

Exhibit 33: YouTube, Peacock, and Disney+ have the most 'browsing' users

Source: AlphaWise, Morgan Stanley Research

Exhibit 34:

Focus index and destination index are positively correlated

Source: AlphaWise, Morgan Stanley Research

Subscribers' focus level varies depending on their reasons for subscribing to streaming platforms. Perhaps not surprisingly, respondents who had more passive entry points to their subscriptions are less likely to watch that platform as their primary focus. For example, having a subscription because "someone else in my household uses it" or because "it was included in a bundle" report lower focus index scores than average. Higher focus index scores are associated with liking the content or accepting the ad load.

Exhibit 35: Level of focus is lower among platform users who got their subscription via a bundle or another member of their household

	Reasons for Subscribing to (Streaming Service)											
Focus Index (%Primary focus - %Background entertainment)	Has my favorite TV shows*	Has my favorite movies*	Has a broad selection of movies / TV shows	Good value for the money	Continues to add movies and TV shows that I like*	There are no ads / an acceptable amount of ads	Has live sports programming	Someone else in my household uses it	Included with my home internet or wireless phone plan	Included with a bundle with another streaming service**	Included with some other type of subscription**	Subscribed via free annual offer with Apple hardware purchase

Source: AlphaWise, Morgan Stanley Research

Potential Impact of Combined HBO Max / Paramount+ Platform

Key to our OW rating on PSKY is its ability to merge Paramount+ and HBO Max into a unified profitable service. Results below are encouraging, as only 10% of subscribers are very unlikely or somewhat unlikely to subscribe to the new super service. Additionally, having access to this combined service may earn PSKY some competitive share from peers: 17% of respondents would likely replace one of their other existing paid subscriptions when adding the combined HBO Max / Paramount+, with Amazon Prime Video, Netflix, and Hulu being the biggest potential share donors. We caveat that survey respondents can tend to over-estimate future actions, especially without a known price point, so our survey estimations represent a maximal potential impact.

Exhibit 36: More than half of respondents are at least somewhat likely to subscribe combined service

Important Regulatory Disclosures on Subject Companies

The analyst or strategist (or a household member) identified below owns the following securities (or related derivatives): Erik W Woodring - AMC Networks, Inc.(common or preferred stock), Walt Disney Co(common or preferred stock).

As of May 29, 2026, Morgan Stanley beneficially owned 1% or more of a class of common equity securities of the following companies covered in Morgan Stanley Research: AMC Networks, Inc., Netflix Inc, Paramount Skydance Corporation, Starz Entertainment Corp., Walt Disney Co, Warner Bros Discovery Inc..

Within the last 12 months, Morgan Stanley has received compensation for investment banking services from AMC Networks, Inc., Netflix Inc, Paramount Skydance Corporation, Walt Disney Co.

In the next 3 months, Morgan Stanley expects to receive or intends to seek compensation for investment banking services from AMC Networks, Inc., Netflix Inc, Paramount Skydance Corporation, Starz Entertainment Corp., Walt Disney Co, Warner Bros Discovery Inc..

Within the last 12 months, Morgan Stanley has received compensation for products and services other than investment banking services from AMC Networks, Inc., Netflix Inc, Walt Disney Co, Warner Bros Discovery Inc..

Within the last 12 months, Morgan Stanley has provided or is providing investment banking services to, or has an investment banking client relationship with, the following company: AMC Networks, Inc., Netflix Inc, Paramount Skydance Corporation, Starz Entertainment Corp., Walt Disney Co, Warner Bros Discovery Inc..

Within the last 12 months, Morgan Stanley has either provided or is providing non-investment banking, securities-related services to and/or in the past has entered into an agreement to provide services or has a client relationship with the following company: AMC Networks, Inc., Netflix Inc, Paramount Skydance Corporation, Walt Disney Co, Warner Bros Discovery Inc..

An employee, director or consultant of Morgan Stanley is a director of Walt Disney Co. This person is not a research analyst or a member of a research analyst's household.

Morgan Stanley & Co. LLC makes a market in the securities of AMC Networks, Inc., Starz Entertainment Corp..

The equity research analysts or strategists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality of research, investor client feedback, stock picking, competitive factors, firm revenues and overall investment banking revenues. Equity Research analysts' or strategists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

Morgan Stanley and its affiliates do business that relates to companies/instruments covered in Morgan Stanley Research, including market making, providing liquidity, fund management, commercial banking, extension of credit, investment services and investment banking. Morgan Stanley sells to and buys from customers the securities/instruments of companies covered in Morgan Stanley Research on a principal basis. Morgan Stanley may have a position in the debt of the Company or instruments discussed in this report. Morgan Stanley trades or may trade as principal in the debt securities (or in related derivatives) that are the subject of the debt research report.

Certain disclosures listed above are also for compliance with applicable regulations in non-US jurisdictions.

STOCK RATINGS

Morgan Stanley uses a relative rating system using terms such as Overweight, Equal-weight, Not-Rated or Underweight (see definitions below). Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold and sell. Investors should carefully read the definitions of all ratings used in Morgan Stanley Research. In addition, since Morgan Stanley Research contains more complete information concerning the analyst's views, investors should carefully read Morgan Stanley Research, in its entirety, and not infer the contents from the rating alone. In any case, ratings (or research) should not be used or relied upon as investment advice. An investor's decision to buy or sell a stock should depend on individual circumstances (such as the investor's existing holdings) and other considerations.

Global Stock Ratings Distribution

(as of May 31, 2026)

The Stock Ratings described below apply to Morgan Stanley's Fundamental Equity Research and do not apply to Debt Research produced by the Firm.

For disclosure purposes only (in accordance with FINRA requirements), we include the category headings of Buy, Hold, and Sell alongside our ratings of Overweight, Equal-weight, Not-Rated and Underweight. Morgan Stanley does not assign ratings of Buy, Hold or Sell to the stocks we cover. Overweight, Equal-weight, Not-Rated and Underweight are not the equivalent of buy, hold, and sell but represent recommended relative weightings (see definitions below). To satisfy regulatory requirements, we correspond Overweight, our most positive stock rating, with a buy recommendation; we correspond Equal-weight and Not-Rated to hold and Underweight to sell recommendations, respectively.

	Coverage Universe		Investment Banking Clients (IBC)			Other Material Investment Services Clients (MISC)	
Stock Rating Category	Count	% of Total	Count	% of Total IBC	% of Rating Category	Count	% of Total Other MISC
Overweight/Buy	1542	42%	465	51%	30%	707	43%
Equal-weight/Hold	1571	43%	369	40%	23%	723	44%
Not-Rated/Hold	3	0%	0	0%	0%	1	0%
Underweight/Sell	551	15%	86	9%	16%	201	12%
Total	3,667		920			1632	

Data include common stock and ADRs currently assigned ratings. Investment Banking Clients are companies from whom Morgan Stanley received investment banking compensation in the last 12 months. Due to rounding off of decimals, the percentages provided in the "% of total" column may not add up to exactly 100 percent.

Analyst Stock Ratings

Overweight (O). The stock's total return is expected to exceed the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Equal-weight (E). The stock's total return is expected to be in line with the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Not-Rated (NR). Currently the analyst does not have adequate conviction about the stock's total return relative to the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Underweight (U). The stock's total return is expected to be below the average total return of the analyst's industry (or industry team's) coverage universe, on a risk-adjusted basis, over the next 12-18 months.

Unless otherwise specified, the time frame for price targets included in Morgan Stanley Research is 12 to 18 months.

Analyst Industry Views

Attractive (A): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be attractive vs. the relevant broad market benchmark, as indicated below.

In-Line (I): The analyst expects the performance of his or her industry coverage universe over the next 12-18 months to be in line with the relevant broad market benchmark, as indicated below.

Cautious (C): The analyst views the performance of his or her industry coverage universe over the next 12-18 months with caution vs. the relevant broad market benchmark, as indicated below. Benchmarks for each region are as follows: North America - S&P 500; Latin America - relevant MSCI country index or MSCI Latin America Index; Europe - MSCI Europe; Japan - TOPIX; Asia - relevant MSCI country index or MSCI sub-regional index or MSCI AC Asia Pacific ex Japan Index.

Important Disclosures for Morgan Stanley Smith Barney LLC Customers

Important disclosures regarding any material conflict of interest that can reasonably be expected to have influenced Morgan Stanley Smith Barney LLC's choice of a third-party research provider or the subject company of a third-party research report, are available on the Morgan Stanley Wealth Management disclosure website at www.morganstanley.com/online/researchdisclosures.

For Morgan Stanley specific disclosures, you may refer to <https://www.morganstanley.com/eqr/disclosures/webapp/generalresearch>.

Each Morgan Stanley research report is reviewed and approved on behalf of Morgan Stanley Smith Barney LLC. This review and approval is conducted by the same person who reviews the research report on behalf of Morgan Stanley. This could create a conflict of interest.

Other Important Disclosures

A member of Research who had or could have had access to the research prior to completion owns securities (or related derivatives) in the Netflix Inc, Walt Disney Co. This person is not a research analyst or a member of research analyst's household.

Morgan Stanley Research policy is to update research reports as and when the Research Analyst and Research Management deem appropriate, based on developments with the issuer, the sector, or the market that may have a material impact on the research views or opinions stated therein. In addition, certain Research publications are intended to be updated on a regular periodic basis (weekly/monthly/quarterly/annual) and will ordinarily be updated with that frequency, unless the Research Analyst and Research Management determine that a different publication schedule is appropriate based on current conditions.

Morgan Stanley is not acting as a municipal advisor and the opinions or views contained herein are not intended to be, and do not constitute, advice within the meaning of Section 975 of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Morgan Stanley produces an equity research product called a "Tactical Idea." Views contained in a "Tactical Idea" on a particular stock may be contrary to the recommendations or views expressed in research on the same stock. This may be the result of differing time horizons, methodologies, market events, or other factors. For all research available on a particular stock, please contact your sales representative or go to Matrix at <http://www.morganstanley.com/matrix>.

Morgan Stanley Research is provided to our clients through our proprietary research portal on Matrix and also distributed electronically by Morgan Stanley to clients. Certain, but not all, Morgan Stanley Research products are also made available to clients through third-party vendors or redistributed to clients through alternate electronic means as a convenience. For access to all available Morgan Stanley Research, please contact your sales representative or go to Matrix at <http://www.morganstanley.com/matrix>.

Any access and/or use of Morgan Stanley Research is subject to Morgan Stanley's Terms of Use (<http://www.morganstanley.com/terms.html>). If you do not agree to our Terms of Use and/or if you do not wish to provide your consent to Morgan Stanley processing your personal data or using cookies please do not access our research. Morgan Stanley Research does not provide individually tailored investment advice. Morgan Stanley Research has been prepared without regard to the circumstances and objectives of those who receive it. Morgan Stanley recommends that investors independently evaluate particular investments and strategies, and encourages investors to seek the advice of a financial adviser. The appropriateness of an investment or strategy will depend on an investor's circumstances and objectives. The securities, instruments, or strategies discussed in Morgan Stanley Research may not be suitable for all investors, and certain investors may not be eligible to purchase or participate in some or all of them. Morgan Stanley Research is not an offer to buy or sell or the solicitation of an offer to buy or sell any security/instrument or to participate in any particular trading strategy. The value of and income from your investments may vary because of changes in interest rates, foreign exchange rates, default rates, prepayment rates, securities/instruments prices, market indexes, operational or financial conditions of companies or other factors. There may be time limitations on the exercise of options or other rights in securities/instruments transactions. Past performance is not necessarily a guide to future performance. Estimates of future performance are based on assumptions that may not be realized. If provided, and unless otherwise stated, the closing price on the cover page is that of the primary exchange for the subject company's securities/instruments.

The fixed income research analysts, strategists or economists principally responsible for the preparation of Morgan Stanley Research have received compensation based upon various factors, including quality, accuracy and value of research, firm profitability or revenues (which include fixed income trading and capital markets profitability or revenues), client feedback and competitive factors. Fixed Income Research analysts', strategists' or economists' compensation is not linked to investment banking or capital markets transactions performed by Morgan Stanley or the profitability or revenues of particular trading desks.

The "Important Regulatory Disclosures on Subject Companies" section in Morgan Stanley Research lists all companies mentioned where Morgan Stanley owns 1% or more of a class of common equity securities of the companies. For all other companies mentioned in Morgan Stanley Research, Morgan Stanley may have an investment of less than 1% in securities/instruments or derivatives of securities/instruments of companies and may trade them in ways different from those discussed in Morgan Stanley Research. Employees of Morgan Stanley not involved in the preparation of Morgan Stanley Research may have investments in securities/instruments or derivatives of securities/instruments of companies mentioned and may trade them in ways different from those discussed in Morgan Stanley Research. Derivatives may be issued by Morgan Stanley or associated persons.

With the exception of information regarding Morgan Stanley, Morgan Stanley Research is based on public information. Morgan Stanley makes every effort to use reliable, comprehensive information, but we make no representation that it is accurate or complete. We have no obligation to tell you when opinions or information in Morgan Stanley Research change apart from when we intend to discontinue equity research coverage of a subject company. Facts and views presented in Morgan Stanley Research have not been reviewed by, and may not reflect information known to, professionals in other Morgan Stanley business areas, including investment banking personnel.

Morgan Stanley Research personnel may participate in company events such as site visits and are generally prohibited from accepting payment by the company of associated expenses unless pre-approved by authorized members of Research management.

Morgan Stanley may make investment decisions that are inconsistent with the recommendations or views in this report.

To our readers based in Taiwan or trading in Taiwan securities/instruments: Information on securities/instruments that trade in Taiwan is distributed by Morgan Stanley Taiwan Limited ("MSTL"). Such information is for your reference only. The reader should independently evaluate the investment risks and is solely responsible for their investment decisions. Morgan Stanley Research may not be distributed to the public media or quoted or used by the public media without the express written consent of Morgan Stanley. Any non-customer reader within the scope of Article 7-1 of the Taiwan Stock Exchange Recommendation Regulations accessing and/or receiving Morgan Stanley Research is not permitted to provide Morgan Stanley Research to any third party (including but not limited to related parties, affiliated companies and any other third parties) or engage in any activities regarding Morgan Stanley Research which may create or give the appearance of creating a conflict of interest. Information on securities/instruments that do not trade in Taiwan is for informational purposes only and is not to be construed as a recommendation or a solicitation to trade in such securities/instruments. MSTL may not execute transactions for clients in these securities/instruments.
